The “taxable year” of the Qualified Settlement Fund shall be the “calendar year” as such terms are defined in Section 441 of the Code. The Qualified Settlement Fund shall use the accrual method of accounting as defined in Section 446(c) of the Code.

7.2.2. The Special Master will also be responsible for ensuring the Qualified Settlement Fund complies with all withholding requirements (including by instructing the Escrow Agent to withhold any required amounts) with respect to payments made by the Qualified Settlement Fund, as well as paying any associated interest and penalties. Any amounts

deducted or withheld by the Escrow Agent (or any other withholding agent) with respect to payments made by the Qualified Settlement Fund shall be treated for all purposes as though such amounts had been distributed to the Person in respect of which such deduction or withholding was made. The Special Master shall direct the Escrow Agent to timely pay from the Qualified Settlement Fund any taxes (including but not limited to withholding taxes with respect to distributions from the Qualified Settlement Fund), interest, and penalties required to be paid to the IRS or any other governmental authority by the Qualified Settlement Fund (collectively, "Taxes") and any reasonable out-of-pocket expenses incurred to (i) cause any Tax returns and information reports to be prepared and filed, (ii) respond to any questions from, or represent the Qualified Settlement Fund in any audit or similar proceeding regarding Taxes by, the IRS or any state or local governmental authority or (iii) otherwise satisfy any Tax compliance obligation of the Qualified Settlement Fund (such Taxes and other expenses, collectively, the "Tax Expenses"). In addition, the Special Master shall timely file with the IRS any information returns and shall timely provide to Tyco any written statements, in each case, collected from Qualifying Class Members. Tyco shall provide the Special Master with the statement required pursuant to Treasury Regulations § 1.468B-3(e) no later than February 15th of the year following the calendar year in which Tyco transfers the Settlement Amount to the Qualified Settlement Fund. 7.2.3. All Taxes arising with respect to the income earned by the Qualified Settlement Fund, including any Taxes or Tax detriments that may be imposed upon Tyco, its insurers, or Tyco's Counsel with respect to any income earned by the Qualified Settlement Fund for any period during which the Qualified Settlement Fund does not qualify as a "qualified settlement fund" for federal or state income Tax purposes and all Tax Expenses shall be paid out of the Qualified Settlement Fund. In all events, none of Class Representatives, Tyco, Tyco's Counsel, Tyco's insurers, or Class Counsel shall have any liability or responsibility for Taxes or Tax Expenses. Taxes and Tax Expenses shall be treated as, and considered to be, a cost of administration of the Qualified Settlement Fund and shall be timely paid by the Special Master out of the Qualified Settlement Fund without prior order from the Court, and none of Tyco, Tyco's insurers, Tyco's Counsel, Class Representatives, or Class Counsel shall be responsible or have any liability therefor.

- 9.7.3. No “mass” or “class” Opt Out shall be valid, and no Eligible Claimant may submit an Opt Out on behalf of any other Eligible Claimant or Class Member.
- 9.8. **The Final Fairness Hearing.** On the date and time set by the Court, the Class Representatives and Tyco shall participate in the Final Fairness Hearing and will reasonably cooperate with one another to obtain an Order Granting Final Approval, with Class Counsel, on behalf of the Class Representatives, expressly moving for Final Approval.
- 9.9. **Entry of Order Granting Final Approval.** At the Final Fairness Hearing, the Class Representatives will request that the Court: (a) enter an Order Granting Final Approval in accordance with this Settlement Agreement; (b) conclusively certify the Settlement Class; (c) overrule or otherwise resolve any Objections; (d) make a final determination that notice was adequate; (e) approve the Settlement Agreement as final, fair, good faith, reasonable, adequate, and binding on all Class Members; (f) dismiss this action with prejudice; and (g) permanently enjoin any Class Member from bringing any proceeding against any Released Party in any court. Pursuant to Federal Rule of Civil Procedure 23(h), Class Counsel may apply for a Class fee consisting of a portion of the Settlement Funds and for reimbursement of Class costs and expenses. That application shall be filed not less than twenty (20) calendar days before Objections are due pursuant to Paragraph 9.5. Subject to Class Counsel’s application for attorneys’ fees and costs, and in accordance with the Order Granting Final Approval, the Special Master, after consulting with the Claims Administrator, shall distribute attorneys’ fees and costs approved by the Court (including expert witness fees, consultants’ fees, and litigation expenses; any Court-approved class representative service awards; and the cost of class notice and class administration) from the Qualified Settlement Fund. Any attorneys’ fees and costs paid to Class Counsel from the Settlement Funds shall be paid only to the extent awarded by the Court, subject to holdback provisions, if any, and not before the Court has entered the Order Granting Final Approval and dismissed this action with prejudice, with no appeals pending or possible.
- 9.10. **Attorneys’ Fees, Costs, and Expenses.** Class Counsel intend to file a motion for a Class award of attorneys’ fees and costs to be paid from the Qualified Settlement Fund in lieu of the Common Benefit Holdback Assessment. Any Class award must be approved by the Court and shall be paid from the Qualified Settlement Fund by the Escrow Agent before any portion of the Settlement Fund is distributed to Class Members, upon production to the Escrow Agent of a copy of the order, on or after such date as the award may become payable under the Court’s order. Tyco has no obligation for any such award other than its payment obligations under this Settlement Agreement. For avoidance of doubt, any award of attorneys’ fees or costs shall be paid from the Settlement Funds; no Released Party shall pay for any attorneys’ fees, costs, or expenses for Class Counsel separate from or in addition to the Settlement Funds. Class Counsel further recognize the Common Benefit Holdback Assessment provisions in Case Management Order No. 3, and intend to request that they continue to apply to any future individual or private settlements.
- 9.11. **Effect of Failure of Final Approval.** If the Court declines or fails to enter an Order

Granting Final Approval in accordance with the terms of this Settlement Agreement, the parties shall proceed as follows:

- 9.11.1. If the Court declines to enter the Order Granting Final Approval as provided for in this Settlement Agreement, the Litigation against any Released Party will resume unless within thirty (30) calendar days the parties mutually agree in writing to (a) seek reconsideration or appellate review of the decision denying entry of the Order Granting Final Approval; (b) attempt to renegotiate the Settlement and seek Court approval of the renegotiated settlement; and/or (c) comply with other guidance or directives the Court has provided.
 - 9.11.2. If the Litigation against any Released Party resumes or the parties seek reconsideration or appellate review of the decision denying entry of the Order Granting Final Approval and such reconsideration or appellate review is denied, this Settlement Agreement shall thereupon terminate.
 - 9.11.3. If, for any reason, the Settlement is not approved by the Court or does not become subject to Final Approval, then no class will be deemed certified as a result of this Settlement Agreement, and the Litigation against any Released Party for all purposes will revert to its status as of the Settlement Date. In such event, no Released Party will be deemed to have consented to certification of any class, and the Released Parties will retain all rights to oppose, appeal, or otherwise challenge class certification and any other issue in the Litigation. Likewise, if the Settlement is not approved by the Court or does not become subject to Final Approval, then the participation in the Settlement by any Class Representative or Class Member cannot be raised as a defense to their Claims.
- 9.12. **Effect of Failure of Order Granting Final Approval to Become a Final Judgment.** If the Order Granting Final Approval does not become a Final Judgment because an appeal is taken of the Order Granting Final Approval, the parties shall proceed as follows:
- 9.12.1. If the Order Granting Final Approval is reversed or vacated by the appellate court, the Litigation against any Released Party will resume within thirty (30) calendar days unless the parties mutually agree in writing to (a) seek further reconsideration or appellate review of the decision reversing or vacating the Order Granting Final Approval; and/or (b) attempt to renegotiate the Settlement and seek Court approval of the renegotiated settlement.
 - 9.12.2. If the Litigation against any Released Party resumes or the parties seek further reconsideration or appellate review of the appellate decision reversing or vacating the Order Granting Final Approval and such further reconsideration or appellate review is denied, this Settlement Agreement shall thereupon terminate.
 - 9.12.3. If, for any reason, the Settlement does not become subject to Final Judgment, then no class will be deemed certified as a result of this Settlement Agreement, and the Litigation against any Released Party for all purposes will revert to its status as of the Settlement Date. In such event, no Released Party will be deemed to have

consented to certification of any class, and Released Parties will retain all rights to oppose, appeal, or otherwise challenge class certification and any other issue in the Litigation. Likewise, if the Settlement does not become subject to Final Judgment, then the participation in the Settlement by any Class Representative or Class Member cannot be raised as a defense to their Claims.

- 9.13. **Termination Refund.** If the Agreement terminates for any reason, the Escrow Agent shall, within fourteen (14) calendar days of receiving written notice of termination from Tyco, repay to Tyco the amount paid into the Qualified Settlement Fund (including any interest accrued thereon) less Court-approved costs of the notice, administrative and other similar costs actually paid or due and payable from the Qualified Settlement Fund as of the date on which the Escrow Agent receives the notice.

10. REQUIRED PARTICIPATION THRESHOLD AND TERMINATION

- 10.1. **Walk-Away Right.** Tyco shall have the option, in its sole discretion, to terminate this Settlement Agreement (the “Walk-Away Right”) if any one of the following conditions is satisfied:

- 10.1.1. **Community Water Systems.** With respect to Community Water Systems, timely and valid Requests for Exclusion from the Settlement Class are received from:

- a) More than Threshold A of such Community Water Systems that serve 1,000,001 or more people; or
- b) More than Threshold B of such Community Water Systems that serve 500,001 to 1,000,000 people; or
- c) More than Threshold C of such Community Water Systems that serve 250,001 to 500,000 people; or
- d) More than Threshold D of such Community Water Systems that serve 100,001 to 250,000 people; or
- e) More than Threshold E of such Community Water Systems that serve 10,001 to 100,000 people; or
- f) More than Threshold F of such Community Water Systems that serve 3,301 to 10,000 people; or
- g) More than Threshold G of such Community Water Systems that serve 501 to 3,300 people; or
- h) More than Threshold H of such Community Water Systems that serve 500 or fewer people.

- 10.1.2. **Non-Transient Non-Community Water Systems.** With respect to Non-Transient Non-Community Water Systems that are part of the Settlement Class

under Paragraph 5.1, timely and valid Requests for Exclusion from the Settlement Class are received from:

- a) More than Threshold I of such Non-Transient Non-Community Water Systems that serve 500,001 or more people; or
- b) More than Threshold J of such Non-Transient Non-Community Water Systems that serve 100,001 to 500,000 people; or
- c) More than Threshold K of such Non-Transient Non-Community Water Systems that serve 10,001 to 100,000 people; or
- d) More than Threshold L of such Non-Transient Non-Community Water Systems that serve 3,301 to 10,000 people.

10.2. For purposes of any of the conditions in Paragraph 10.1:

10.2.1. Percentages will be calculated using as the denominator the number of Public Water Systems in each category listed on Annex 1 to Exhibit M, the separate letter agreement between Class Counsel and Tyco to be filed under seal with the Court; and

10.2.2. A Public Water System otherwise within the Settlement Class will be counted towards the applicable threshold specified above if a timely and valid Request for Exclusion from the Settlement Class is received from either (a) the Public Water System itself or (b) from an Entity that has authority to bring a Claim on behalf of a Class Member Public Water System.

10.3. **Process for Exercising or Waiving the Walk-Away Right.** The Opt Out Administrator, the Notice Administrator, the Claims Administrator, the Special Master, Tyco's Counsel and Class Counsel will have access to each Request for Exclusion that an Eligible Claimant timely and properly submits via the Opt Out portal or by paper submission. Within fourteen (14) calendar days after receiving the last such Request for Exclusion, the Special Master shall determine whether all twelve (12) parts of the Required Participation Threshold have been satisfied and shall inform the parties of this determination. If the Special Master determines and informs the parties that all parts of the Required Participation Threshold have been satisfied, and Tyco in good faith agrees with that determination, Tyco shall, as soon as reasonably possible and in any event no later than twenty-one (21) calendar days after receiving the Special Master's determination, file with the Special Master and the Claims Administrator and serve on all parties in accordance with Paragraph 13.15 written notice that Tyco's Walk-Away Right was not triggered. If the Special Master determines and informs the parties that some or all parts of the Required Participation Threshold have not been satisfied, or if Tyco in good faith disagrees with a determination by the Special Master that all parts of the Required Participation Threshold have been satisfied, Tyco may, in its sole discretion, no later than fourteen (14) calendar days after receiving the Special Master's determination, file with the Special Master, the Opt Out Administrator, and the Claims Administrator and serve on all parties in accordance with Paragraph 13.15 written

notice that Tyco is either (i) exercising its Walk-Away Right or (ii) waiving its Walk-Away Right.

- 10.4. **Effect of Exercising the Walk-Away Right.** If Tyco files and serves a written notice exercising its Walk-Away Right in accordance with Paragraph 10.3, this Settlement Agreement shall thereupon terminate, and this Settlement Agreement, Tyco's obligations under it, and all Releases shall become null and void, without prejudice to the ability of each Party, at its own sole option and discretion, to attempt to negotiate a settlement on different terms. In the event of such a termination, no class will be deemed certified as a result of this Settlement Agreement, and the Litigation against any Released Party for all purposes will revert to its status as of the Settlement Date. In such event, no Released Party will be deemed to have consented to certification of any class, and will retain all rights to oppose, appeal, or otherwise challenge class certification and any other issue in the Litigation. Likewise, the participation in the Settlement by any Class Representative or Class Member cannot be raised as a defense to its Claims.
- 10.5. **Effect of Waiving the Walk-Away Right.** If, in accordance with Paragraph 10.3 Tyco filed and serves a written notice stating that its Walk-Away Right was either waived or not triggered, within five (5) Business Days thereafter, the parties shall submit a joint stipulation to the Court requesting a stay of all proceedings against Released Parties in any action designated as a Tier One or Tier Two bellwether case under Case Management Order Nos. 13, 19, and 27 in the MDL Cases (and their related follow-on Case Management Orders, including the actions identified in Exhibit J). In the event the Court enters an Order designating additional actions brought by Public Water Systems as bellwether cases before the Effective Date or termination of the Settlement, the parties shall submit a joint stipulation requesting a stay of all proceedings against Released Parties in those additional actions within five (5) Business Days after entry of that Order. The parties shall request that any stay of proceedings remain in place until either (a) Dismissal pursuant to Paragraph 12.6; or (b) the Settlement is terminated pursuant to Paragraph 9.11, 9.12 or 10.3. Where a stay of proceedings is terminated because the Settlement is terminated pursuant to Paragraph 9.11, 9.12, or 10.3, the parties shall work cooperatively to submit to the Court within thirty (30) calendar days after the stay being terminated proposed modifications to the bellwether schedule to allow Released Parties to participate in those proceedings without being prejudiced.
- 10.6. **Fee Award Not Grounds for Termination.** The Court's entry of an order awarding Class Counsel an amount for attorneys' fees or expenses less than the amounts requested by Class Counsel shall not be grounds to void this Settlement Agreement. The only remedy in the event of a fee or expense award less than Class Counsel's request shall be a separate appeal by Class Counsel of the fee or expenses award ordered by the Court.
- 10.7. **Terms Surviving Termination.** The terms provided in Paragraphs 9.11.3, 9.12.3, 10.4, 10.7, 13.1, 13.3, 13.13, 13.15, 13.16, 13.20 shall survive any termination of this Settlement Agreement.

11. DISTRIBUTIONS

- 11.1. **Notice and Administration.** All costs of notice and administration of the Settlement shall be paid in accordance with the provisions of Paragraph 6.3.
- 11.2. **Attorneys' Fees and Costs.** Any award of attorneys' fees, costs, or expenses, under the Order Granting Final Approval or such other order of the Court, shall be paid from the Qualified Settlement Fund by the Escrow Agent, after production to the Escrow Agent of a copy of the order. Tyco shall have no obligation for any such award other than its payment obligations under this Settlement Agreement's express terms.
- 11.3. **Claims Procedure and Claims Forms.** To make a claim against the Qualified Settlement Fund, a Class Member will be required to submit to the Claims Administrator a completed, certified Claims Form, signed under penalty of perjury in accordance with 28 U.S.C. § 1746, that provides that the Person submitting the Claims Form is authorized to submit a claim on behalf of the Class Member, provides the Class Member's name, SDWIS ID, address, telephone and facsimile numbers, and email address (if available); authorizes Tyco to obtain all relevant Water Sources' detailed PFAS test results from the laboratory that performed the analyses; and provides, fully and completely, all other information required by the Claims Form including a statement that it tested each of its Water Sources for PFAS. Class Members will be allowed to submit Claims Forms up to the date specified for such purpose in the Notice. Class Counsel will, in its sole discretion, confirm the validity of each Claims Form and confirm that it provides the required information.
- 11.4. **Submission and Payment of Claims.** The Escrow Agent shall release Settlement Funds from the Qualified Settlement Fund to Class Counsel for the benefit of Qualifying Class Members and Class Counsel will cause the Claims Administrator to distribute the Settlement Funds from the Qualified Settlement Fund to Qualifying Class Members, consistent with the payment provisions set forth in Section 6 and Exhibits A and H.

12. RELEASE, COVENANT NOT TO SUE, AND DISMISSAL

12.1. Release.

- 12.1.1. Upon entry of the Final Judgment, and regardless of any post-Settlement Date change to any federal or state law or regulation relating to or involving PFAS, the Releasing Parties shall expressly, intentionally, voluntarily, fully, finally, irrevocably, and forever release, waive, compromise, settle, and discharge the Released Parties from each and every one of the following Claims (collectively, the "Released Claims" or the "Release"): (i) any Claim that may have arisen or may arise at any time in the future out of, relates to, or involves PFAS that has entered or may reasonably be expected to enter Drinking Water or any Releasing Party's Public Water System; including any Claim that (a) was or could have been asserted in the Litigation and that arises or may arise at any time in the future out of, relates to, or involves Drinking Water or any Releasing Party's Public Water System; (b) is for any type of relief with respect to the design, engineering, installation, maintenance, or operation of, or cost associated with, any kind of

treatment, filtration, remediation, management, investigation, testing, or monitoring of PFAS in Drinking Water or in any Releasing Party's Public Water System; or (c) has arisen or may arise at any time in the future out of, relates to, or involves any increase in the rates for Drinking Water that any Releasing Party or Public Water System charges its customers; (ii) any Claim that has arisen or may arise at any time in the future out of, relates to, or involves the development, manufacture, formulation, distribution, sale, transportation, storage, loading, mixing, application, or use of PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS); (iii) any Claim that has arisen or may arise at any time in the future out of, relates to, or involves any Releasing Party's transport, disposal, or arrangement for disposal of PFAS-containing waste or PFAS-containing wastewater, or any Releasing Party's use of PFAS-containing water for irrigation or manufacturing; (iv) any Claim that has arisen or may arise at any time in the future out of, relates to, or involves representations about PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS); and (v) any Claim for punitive or exemplary damages that has arisen or may arise at any time in the future out of, relates to, or involves PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS). It is the intention of this Agreement that the definitions of "Release" and "Released Claims" be as broad, expansive, and inclusive as possible.

12.1.2. Paragraph 12.1.1(i)–(iii) does not apply to the following:

12.1.2.1. Paragraph 12.1.1(i)–(iii) does not apply to a Class Member's Claim related to the remediation, testing, monitoring, or treatment of real property to remove or remediate PFAS where (i) the Class Member owns or possesses real property and has legal responsibility to remove contamination from or remediate contamination of such real property; (ii) such real property is separate from and not related in any way to the Class Member's Public Water System (such as an airport or fire training facility); (iii) the Class Member seeks damages or other relief unrelated to Drinking Water or a Class Member's Public Water System or Water Sources; and (iv) if the Class Member seeks remediation, testing, monitoring, or treatment of groundwater under such real property, the Class Member either (a) identifies Non-Class Potable Water that may be adversely affected by the fate and transport of PFAS released into the groundwater under such real property or (b) is subject to a state or federal directive, order, or permit condition requiring groundwater remediation or treatment to the extent that the directive, order, or permit condition is not premised on a need to protect a Class Member's Public Water System or Water Sources. If a Class Member pursues such a Claim against any Released Party, the Class Member's Claim and damages shall be limited to the costs of remediating or removing PFAS from the property or groundwater under the property, in accordance with applicable or relevant

state or federal regulatory cleanup standards and in a cost-effective manner.

12.1.2.2. Paragraph 12.1.1(i)–(iii) does not apply to a Class Member’s Claim related to the discharge, remediation, testing, monitoring, treatment, or processing of stormwater or wastewater to remove or remediate PFAS at its permitted stormwater system or permitted wastewater facility where (i) the Class Member owns or operates a permitted stormwater system or permitted wastewater facility; (ii) such facility is separate from and not related in any way to the Class Member’s Public Water System such as a separate stormwater or wastewater system that is not related in any way to a Public Water System; (iii) the Class Member seeks damages or other relief unrelated to alleged harm to its Drinking Water or a Class Member’s Public Water System or Water Sources; and (iv) if the Class Member seeks remediation, testing, monitoring, or treatment of groundwater impacted by a permitted stormwater system or permitted wastewater facility, the Class Member either (a) identifies Non-Class Potable Water that may be adversely affected by the fate and transport of PFAS released into the groundwater from the separate stormwater system or wastewater facility, or (b) is subject to a state or federal directive, order, or permit condition requiring groundwater remediation or treatment to the extent that the directive, order, or permit condition is not premised on a need to protect a Class Member’s Public Water System or Water Sources. If a Class Member pursues such a Claim against any Released Party related to stormwater or wastewater that will not be used for Drinking Water, the Class Member’s Claim and damages shall be limited to the costs of remediating or removing PFAS from the stormwater or wastewater in a cost-effective manner. If a Class Member pursues such a Claim against any Released Party related to groundwater that will not be used for Drinking Water and that has been impacted by stormwater or wastewater, the Class Member’s Claim and damages related to groundwater shall be limited to the costs of remediating or removing PFAS from the groundwater, in accordance with any applicable state or federal regulatory groundwater cleanup standards in a cost-effective manner.

12.1.3. Notwithstanding Paragraphs 12.1.2 through 12.1.2.2, if a Releasing Party pursues a Claim, including any Claim described in Paragraphs 12.1.2 through 12.1.2.2, against any Released Party arising out of, relating to, or involving PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS), the Releasing Party shall affirm in a complaint or similar filing that (i) this Settlement Agreement has fully and finally resolved all its Claims against Released Parties arising out of, related to, or involving PFAS that has entered or is associated with Drinking Water or any Releasing Party’s Public Water System and (ii) its Claims against Released Parties do not arise out of, relate to, or involve (a) PFAS that has entered or is associated with Drinking Water or any Releasing Party’s Public Water System (including Claims seeking damages, abatement, or other relief to prevent or pay

the cost to prevent PFAS from entering any Public Water System from a Water Source or any other source) or (b) treatment, filtration, or remediation to address PFAS in or to prevent PFAS from entering Drinking Water or a Releasing Party's Public Water System.

12.1.4. Notwithstanding Paragraphs 12.1.2 through 12.1.2.2, and consistent with the affirmation described in Paragraph 12.1.3, each Releasing Party that pursues a Claim against any Released Party arising out of, related to, or involving PFAS or any product (including AFFF) manufactured with or containing PFAS (including any Claim described in Paragraphs 12.1.2 through 12.1.2.2):

12.1.4.1. shall specifically and expressly affirm in its complaint or similar filing and in any relevant expert report that it is not seeking damages, treatment, filtration, or remediation that in any way arises out of, relates to, or involves PFAS that has entered or is associated with Drinking Water or any Releasing Party's Public Water System (including Claims seeking abatement or other relief to prevent or pay the cost to prevent PFAS from entering any Public Water System from a Water Source or any other source or seeking treatment, filtration, or remediation to address PFAS in or prevent PFAS from entering Drinking Water or a Releasing Party's Public Water System);

12.1.4.2. shall make no argument to any finder of fact that the Releasing Party is entitled to any damages, remedy, or other relief described in Paragraph 12.1.4.1; and

12.1.4.3. shall not seek punitive or exemplary damages against any Released Party arising out of, related to, or involving PFAS or any product (including AFFF) manufactured with or containing PFAS, as Claims for such damages are released by this Settlement.

12.1.5. The Parties expressly incorporate into Paragraph 12.1 the guidance set forth in the Parties' Joint Interpretive Guidance documents, attached as Exhibits N through Q.

12.2. Releases as between Tyco and ChemDesign.

12.2.1. ChemDesign Products, Inc., on behalf of itself, and its present, former, and future direct and indirect affiliates, agents, divisions, predecessors, parents, subsidiaries, shareholders, members, insurers, and successors, fully, finally, and forever releases, relinquishes and discharges Tyco Fire Products LP and its respective past, present, or future administrators, advisors, affiliated business entities, affiliates, agents, assigns, attorneys, constituent corporation or entity (including constituent of a constituent) absorbed by Tyco in a consolidation or merger, counsel, directors, divisions, employee benefit plans, employee benefit plan participants or beneficiaries, employees, executors, heirs, insurers, managers, members, officers, owners, parents, partners, partnerships, predecessors,

principals, resulting corporation or entity, servants, shareholders, subrogees, subsidiaries, successors, trustees, trusts, and any other representatives, individually or in their corporate or personal capacity, and anyone acting on their behalf, including in a representative or derivative capacity, including without limitation Chemguard, Inc., WillFire HC, LLC (d/b/a Williams Fire and Hazard Control), Johnson Controls International plc, Johnson Controls, Inc., Johnson Controls Fire Protection, LP, Central Sprinkler LLC, Tyco International Management Company, LLC, Tyco Fire & Security US Holdings LLC, Tyco Fire and Security (US) Management, LLC, Johnson Controls US Holdings LLC, JIH S.à.r.l., Johnson Controls Luxembourg European Finance S.à.r.l., Tyco International Finance S.A., Tyco International Holding S.à.r.l., Tyco Fire & Security S.à.r.l., Tyco Fire & Security Finance S.C.A., and Fire Products GP Holding, LLC. of and from each and every claim arising out of or related in any way to the Released Claims. It is the intention of this Paragraph that the definition of “Tyco” be as broad, expansive, and inclusive as possible.

- 12.2.2. Tyco, on behalf of itself, and its present, former, and future direct and indirect affiliates, agents, divisions, predecessors, parents, subsidiaries, shareholders, members, insurers, and successors, fully, finally, and forever releases, relinquishes and discharges ChemDesign and its respective past, present, or future administrators, advisors, affiliated business entities, affiliates, agents, assigns, attorneys, constituent corporation or entity (including constituent of a constituent) absorbed by ChemDesign in a consolidation or merger, counsel, directors, divisions, employee benefit plans, employee benefit plan participants or beneficiaries, employees, executors, heirs, insurers, managers, members, officers, owners, parents, partners, partnerships, predecessors, principals, resulting corporation or entity, servants, shareholders, subrogees, subsidiaries, successors, trustees, trusts, and any other representatives, individually or in their corporate or personal capacity, and anyone acting on their behalf, including in a representative or derivative capacity of and from each and every claim arising out of or related in any way to the Released Claims. It is the intention of this Paragraph that the definition of “ChemDesign” be as broad, expansive, and inclusive as possible.
- 12.3. **Exclusive Consideration for Released Claims.** The distributions described in Section 6 and Exhibits A and H are the exclusive consideration provided to the Releasing Parties for the Released Claims against the Released Parties. Each Class Member shall look solely to the Settlement Funds (less reasonable attorneys’ fees and costs) for satisfaction of all such Released Claims herein, though each Class Member also may seek payment from other defendants in the Litigation. Accordingly, the Released Parties shall not be subject to liability or expense of any kind to the Releasing Parties with respect to any Released Claims, other than as set forth in this Settlement Agreement.
- 12.4. **Covenant Not to Sue.** The Releasing Parties shall not at any time hereafter whether directly or indirectly or individually or as a member or representative of a class commence, assign, or prosecute any Claim, demand, or cause of action at law or otherwise for damages, loss, or injury arising out of, related to, or involving any act, error, omission, event, or thing within the scope of the Release set forth in Paragraph 12.1 against any or all Released

Parties as to any Released Claims (the “Covenant Not to Sue”). The Releasing Parties consent to the jurisdiction of this Court or, any other court having jurisdiction to enter an injunction barring the Releasing Parties from commencing or prosecuting any action or other proceeding, or seeking other benefits, based upon the Released Claims.

- 12.5. **Protection of Ratepayers.** Upon entry of the Final Judgment, each Releasing Party represents and warrants that (i) this Settlement has compensated it for PFAS allegedly attributable to the Released Party; and (ii) future additions, modifications, or improvements to its Public Water System due to PFAS will be the sole responsibility of the Releasing Party and not the Released Parties. Upon a Released Party’s written request, a Releasing Party shall provide any Released Party a letter substantially in the form of Exhibit K. No Releasing Party shall assert that any future rate increase request was attributable to a Released Party’s development, manufacture, formulation, distribution, sale, transportation, storage, loading, mixing, application, or use of PFAS or any product (including AFFF) manufactured with or containing PFAS, but may assert generally the need for PFAS treatment. The Releasing Parties reserve the right to change their rates for any reason, so long as they do not attribute the change to any Released Party.
- 12.6. **Dismissal.** Subject to paragraph 12.6.1, in accordance with the Release and Covenant Not to Sue, all pending Litigation brought by or on behalf of a Releasing Party against any Released Party involving any Released Claim shall be dismissed with prejudice, with each party bearing its own costs (the “Dismissal”). The Parties agree that the Releasing Party shall execute a stipulation of Dismissal with prejudice, in a form substantially similar to the one provided for in Exhibit L, within fourteen (14) calendar days after the Effective Date.
 - 12.6.1. To the extent allowed by this Paragraph 12.6.1, Dismissal of pending Litigation that includes a Claim or part of a Claim that would not be released by this Section 12 shall be limited to any Claim or part of a Claim that is released by this Section 12. Any Releasing Party that asserts that it has at least one Claim (or part of a Claim) against a Released Party in the Litigation that would not be released by this Section 12 must notify the Special Master, Class Counsel, and Tyco’s Counsel before the date of the Final Fairness Hearing if it intends to seek such a limited Dismissal. In accord with any written agreement among such Releasing Party, Class Counsel, and Tyco’s Counsel regarding the scope of limited Dismissal, such Releasing Party shall execute a stipulation of limited Dismissal with prejudice, in the form provided for in Exhibit L, dismissing with prejudice all Claims and parts of Claims released by this Section 12, with each party bearing its own costs, within fourteen (14) calendar days after the Effective Date. Absent written agreement among such Releasing Party, Class Counsel, and Tyco’s Counsel about the scope of any limited Dismissal, such Releasing Party must seek leave of court to file a limited Dismissal no later than fourteen (14) calendar days after the date of Final Approval. Such Releasing Party shall execute a stipulation of Dismissal with prejudice or limited Dismissal with prejudice, as consistent with the Court’s ruling on such Releasing Party’s request for leave, in the form provided for in Exhibit L, dismissing with prejudice all Claims and parts of Claims released by this Section 12, with each party bearing its own costs, within

the later of fourteen (14) calendar days after the Effective Date or seven (7) calendar days after the court's ruling on the Releasing Party's motion for leave to file a limited dismissal. If a Releasing Party does not timely seek and obtain a written agreement or leave of court permitting a limited Dismissal, Litigation brought by or on behalf of that Releasing Party against any Released Party shall be dismissed in its entirety with prejudice pursuant to Paragraph 12.6.

- 12.6.2. If a Releasing Party fails to timely execute a stipulation of Dismissal required by Paragraph 12.6 or Paragraph 12.6.1, Tyco may move for Dismissal or limited Dismissal as appropriate.

12.7. **Protection Against Claims-Over.**

- 12.7.1. It is the intent of the Parties that:
- 12.7.1.1. The payments Tyco makes under this Agreement shall be the sole payments the Released Parties shall make to address alleged PFAS contamination at Class Members' Public Water Systems;
 - 12.7.1.2. A Claim by a Releasing Party against any non-Party arising out of a Released Claim should not result in any additional payment by any Released Party; and
 - 12.7.1.3. The Agreement meets the requirements of the Uniform Contribution Among Tortfeasors Act and any similar state law or doctrine that reduces or discharges a released party's liability to any other parties.
- 12.7.2. The Order Granting Final Approval will specify that the Settlement is a good-faith settlement that bars any Claim by any non-Released Party against any Released Party for contribution, for indemnification, or otherwise seeking to recover any amounts paid by or awarded against that non-Released Party and paid or awarded to any Releasing Party by way of settlement, judgment, or otherwise on any Claim that would be a Released Claim were such non-Released Party a Released Party (a "Claim-Over"), to the extent that a good-faith settlement (or release thereunder) has such an effect under applicable law.
- 12.7.3. To the extent that on or after the Effective Date any Releasing Party settles any Claim it has against any non-Released Party relating to, or involving the Released Claims and provides a release to such non-Released Party, the Releasing Party shall include in that settlement a release from such non-Released Party in favor of the Released Parties in a form equivalent to the Release contained in this Settlement Agreement.
- 12.7.4. If a Released Claim asserted by a Releasing Party gives rise to a Claim-Over against a Released Party and a court determines that the Claim-Over can be maintained notwithstanding the order referenced in Paragraph 12.7.2, the Releasing Party shall reduce the amount of any judgment it obtains against the

non-Releasing Party who is asserting the Claim-Over by whatever amount is necessary, or take other action as is sufficient, to fully extinguish the Claim-Over under applicable law. Nothing herein prevents a Releasing Party from pursuing litigation against a non-Released Party and collecting the full amount of any judgment, except to the extent it is necessary to protect the Released Party to fully extinguish a Claim-Over under applicable law.

- 12.7.5. The Claim-Over protections provided in Paragraph 12.7 shall not apply to Claims brought by a State or the federal government.
- 12.8. **Liens.** Each Class Member agrees to be responsible for any lien, interest, action, or Claim asserted by any third party, in a derivative manner, for or against that Class Member's share of the Settlement Amount, including any derivative action or Claim asserted by any financial institution, lender, insurer, agent, representative, successor, predecessor, assign, attorney, bankruptcy trustee, and any other Person who may claim through them in a derivative manner.
- 12.9. **Exclusive Remedy.** The relief provided for in this Settlement Agreement shall be the sole and exclusive remedy for all Releasing Parties with respect to any Released Claims, and the Released Parties shall not be subject to liability or expense of any kind with respect to any Released Claims other than as set forth in this Settlement Agreement.
- 12.10. **Waiver of Statutory Rights.** To the extent the provisions apply, the Releasing Parties expressly, knowingly, and voluntarily waive the provisions of Section 1542 of the California Civil Code, which provides:

A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release and that, if known by him or her, would have materially affected his or her settlement with the debtor or released party.

To the extent the provisions apply, the Releasing Parties likewise expressly, knowingly, and voluntarily waive the provisions of Section 28-1-1602 of the Montana Code Annotated, which provides:

A general release does not extend to claims that the creditor does not know or suspect to exist in the creditor's favor at the time of executing the release, which, if known by the creditor, must have materially affected the creditor's settlement with the debtor.

To the extent the provisions apply, the Releasing Parties likewise expressly, knowingly, and voluntarily waive the provisions of Section 20-7-11 of the South Dakota Codified Laws, which provides:

A general release does not extend to claims which the creditor does not know or suspect to exist in his favor at the time of executing the release,

which if known by him must have materially affected his settlement with the debtor.

To the extent the laws apply, the Releasing Parties expressly waive and relinquish all rights and benefits that they may have under, or that may be conferred upon them by, Section 1542 of the California Civil Code, Section 28-1-1602 of the Montana Code Annotated, Section 9-13-02 of the North Dakota Century Code, Section 20-7-11 of the South Dakota Codified Laws, and all similar laws of other States, to the fullest extent that they may lawfully waive such rights or benefits pertaining to the Released Claims. In connection with such waiver and relinquishment, the Releasing Parties acknowledge that they are aware that they or their attorneys may hereafter discover Claims or facts in addition to or different from those that they now know or believe to exist with respect to the Released Claims, but that it is their intention to accept and assume that risk and fully, finally, and forever release, waive, compromise, settle, and discharge all the Released Claims against Released Parties. The Release thus shall remain in effect notwithstanding the discovery or existence of any additional or different Claims or facts.

- 12.11. This Agreement shall not release any Claims owned by a State or the federal government where brought, respectively, by the State or the federal government. For the avoidance of doubt, consistent with Paragraph 5.1(B) through 5.1(C) of this Settlement Agreement, this Paragraph 12.11 shall not apply to (1) any Claim brought by or on behalf of a Public Water System that is owned by a State government but (a) is not listed in SDWIS as having its sole “Owner Type” a “State government”, (b) has independent authority to sue and be sued, or (c) both, or to (2) any Claim brought by or on behalf of a Public Water System that is owned by the federal government but (a) is not listed in SDWIS as having its sole “Owner Type” the “Federal government”, (b) has independent authority to sue and be sued, or (c) both.

13. MISCELLANEOUS PROVISIONS

- 13.1. **Continuing Jurisdiction.** The U.S. District Court for the District of South Carolina shall have and retain jurisdiction over the interpretation and implementation of this Settlement Agreement, as well as any and all matters arising out of, or related to, or involving the interpretation or implementation of the Settlement Agreement.
- 13.2. **Cooperation.** The Parties shall cooperate fully with each other and shall use all reasonable efforts to obtain Court approval of the Settlement and all its terms. Tyco shall provide all information reasonably necessary to assist the Class Representatives in the filing of any brief supporting approval of the Settlement. Class Representatives, Class Counsel, Tyco, and Tyco’s Counsel agree to recommend approval of and to support this Settlement Agreement to the Court and to use all reasonable efforts to give force and effect to its terms and conditions. Class Representatives, Class Counsel, Tyco, Tyco’s agents, and Tyco’s Counsel shall not in any way encourage any objections to the Settlement (or any of its terms or provisions) or encourage any Eligible Claimant to elect to opt out. Class Representatives and Class Counsel shall cooperate fully with Tyco, Tyco’s agents, and Tyco’s Counsel by providing Tyco with (and consenting to the Special Master, the Opt Out Administrator and Claims Administrator providing Tyco with) any non-privileged, non-

work-product-protected documents, data, communications, or information that Tyco deems necessary to any insurance recovery effort.

- 13.3. **No Admission of Wrongdoing or Liability.** Tyco does not admit or concede any liability or wrongdoing, acknowledge any validity to the Claims asserted in the Litigation, acknowledge any scientific, medical, factual, or other basis asserted in support of any of those Claims, acknowledge that certification of a litigation class is appropriate as to any Claim, or acknowledge any weakness in the defenses asserted in the Litigation, and nothing in this Settlement Agreement, the Preliminary Approval, or the Final Approval shall be interpreted to suggest anything to contrary. Nothing in this Settlement Agreement, any negotiations, statements, communications, proceedings, filings, or orders relating thereto, or the fact that the Parties entered the Settlement Agreement and settled the Released Claims against Released Parties shall be construed, deemed, or offered as an admission or concession by any of the Parties or as evidentiary, impeachment, or other material available for use or subject to discovery in any suit, action, or proceeding (including the Litigation), except (i) as required or permitted to comply with or enforce the terms of this Settlement Agreement, the Preliminary Approval, or the Final Approval, or (ii) in connection with a defense based on *res judicata*, claim preclusion, collateral estoppel, issue preclusion, release, or other similar theory asserted by any of the Released Parties. Nothing in this Agreement is intended to limit any right, Claim, or defense that any Released Party may have with respect to any litigation or Claim brought by a non-Releasing Party.
- 13.4. **Amendment of Settlement Agreement.** No waiver, modification, or amendment of the terms of this Settlement Agreement, made before or after Final Approval, shall be valid or binding unless in writing, signed by Class Counsel and by duly authorized signatories of Tyco, and then only to the extent set forth in such written waiver, modification, or amendment, and subject to any required Court approval.
- 13.5. **Construction of Settlement Agreement.** The Parties acknowledge as part of the execution hereof that this Settlement Agreement was reviewed and negotiated by their respective counsel and agree that the language of this Settlement Agreement shall not be presumptively construed against any of the Parties. This Settlement Agreement shall be construed as having been drafted by all the Parties to it, so that any rule of construction by which ambiguities are interpreted against the drafter shall have no force and effect.
- 13.6. **Arm's-Length Transaction.** The Parties each acknowledge that the negotiations leading to this Settlement Agreement were conducted regularly and at arm's length; this Settlement Agreement is made and executed by and of each executing Party's own free will; each such Party knows all the relevant facts and its rights in connection therewith; and such Party has not been improperly influenced or induced to make this settlement as a result of any act or action on the part of any other Party or employee, agent, attorney, or representative of any other Party.
- 13.7. **Third-Party Beneficiaries.** This Settlement Agreement does not create any third-party beneficiaries, except Class Members and the Released Parties other than Tyco, which are intended third-party beneficiaries.

- 13.8. **Entire Agreement.** No representations, warranties, or inducements have been made to any of the Parties, other than those representations, warranties, and covenants contained in this Settlement Agreement, which collectively constitute the entire agreement between the Parties with regard to the subject matter contained herein, and supersede and cancel all prior and contemporaneous agreements, negotiations, commitments, and understandings between the Parties with respect to the specific subject matter hereof.
- 13.9. **Binding Effect.** This Settlement Agreement shall be binding upon and inure to the benefit of the Parties, the Released Parties, and their respective heirs, successors, and assigns. Consistent with Paragraph 4.3, the individual signing this Settlement Agreement on behalf of Tyco represents and warrants that he or she has the power and authority to enter into this Settlement Agreement on behalf of Tyco, on whose behalf he or she has executed this Settlement Agreement, as well as the power and authority to bind Tyco to this Settlement Agreement. Likewise, consistent with Paragraph 4.2, Interim Class Counsel executing this Settlement Agreement represent and warrant that they have the power and authority to enter into this Settlement Agreement on behalf of Class Representatives and Class Members, as well as the power and authority to bind Class Representatives and Class Members to this Settlement Agreement.
- 13.10. **Waiver.** Any failure by any Party to insist upon the strict performance by any of the other Parties of any of the provisions of this Settlement Agreement shall not be deemed a waiver of any of the provisions of this Settlement Agreement and such Party, notwithstanding such failure, shall have the right thereafter to insist upon the specific performance of any and all of the provisions of this Settlement Agreement.
- 13.11. **Specific Performance.** The Parties agree that money damages would not be a sufficient remedy for any breach of this Settlement Agreement by any Party and each non-breaching Party shall be entitled to specific performance and injunctive or other equitable relief as a remedy of any such breach in addition to any other remedy available at law or in equity, without the necessity of demonstrating the inadequacy of money damages.
- 13.12. **Force Majeure.** The failure of any Party to perform any of its obligations hereunder shall not subject any Party to any liability or remedy for damages, or otherwise, where such failure is occasioned in whole or in part by Acts of God, fires, accidents, pandemics, other natural disasters, interruptions or delays in communications or transportation, labor disputes or shortages, shortages of material or supplies, governmental laws, rules or regulations of governmental bodies or tribunals, acts or failures to act of any third parties, or any other similar or different circumstances or causes beyond the reasonable control of such Party.
- 13.13. **Confidentiality.** The parties shall keep confidential the content of the negotiations, points of discussion, documents, communications, and supporting data utilized or prepared in connection with the negotiations and settlement discussions taking place in the MDL Cases, except as otherwise required by law. Nothing in this Settlement Agreement shall prevent Tyco from disclosing such information to its insurers if demanded by those insurers in the context of their coverage investigation. The parties may, at their discretion, issue publicity, press releases, or other public statements regarding this Settlement, whether

unilaterally or as jointly agreed to in writing by all parties. Any jointly agreed or other statement shall not limit Tyco's ability to provide information about the Settlement to its employees, accountants, attorneys, insurers, shareholders, or other stakeholders or in accordance with legal requirements or to limit Class Counsel's ability to provide Notice or information about the Settlement to Eligible Claimants or in accordance with legal requirements.

- 13.14. **Exhibits.** Any Exhibits hereto are incorporated herein by reference as if set forth herein verbatim, and the terms of any Exhibits, including the Parties' Joint Interpretive Guidance documents attached hereto as Exhibits N, O, P and Q, are expressly made a part of this Settlement Agreement.
- 13.15. **Notices to Parties.** Any notice, request, instruction, or other document to be delivered pursuant to this Settlement Agreement shall be sent to the appropriate Party by (i) electronic mail; and (ii) overnight courier, delivery confirmation requested:

Allocation Procedures

Allocation Procedures Overview

This Document describes the Allocation Procedures referred to in Section 6 of the Settlement Agreement. The Settlement Amount will be allocated between and among Qualifying Class Members as set forth in the Settlement Agreement and these Allocation Procedures.

The Court will appoint a Special Master and Claims Administrator pursuant to Rule 53 of the Federal Rules of Civil Procedure to oversee the allocation of the Settlement Funds. They will adhere to their duties set forth herein and in the Settlement Agreement. The Special Master will generally oversee the Claims Administrator and make any final decision(s) related to any appeals by Qualifying Class Members or Tyco and any ultimate decision(s) presented by the Claims Administrator. The Claims Administrator will perform the actual modeling, allocation, and payment functions. The Claims Administrator will seek assistance from the Special Master when needed. The Claims Administrator may seek the assistance of Interim Class Counsel's consultants who provided guidance in designing the Allocation Procedures.

The Claims Administrator shall not allow for duplicate recoveries for PFAS in or entering Class Members' Public Water Systems.

A Class Member will not be allocated or receive its share of the Settlement Funds if it does not submit a timely and complete Claims Form.

Claims Forms will be available online and can be submitted to the Claims Administrator electronically or on paper. Putative Class Members can begin providing information required by the Claims Forms once an Order Granting Preliminary Approval has been issued, then finalize submission following the Effective Date. The Claims Forms will vary depending on the specific fund(s) from which compensation is sought.

Any Qualifying Class Member who has submitted information through the Claims Administrator's website pursuant to previous Public Water System ("PWS") settlements will not need to re-submit that same information. Qualifying Class Members will have the opportunity to update previously provided information to bring their submission(s) current and/or reflect new information.

DEFINITIONS

As used in the Settlement Agreement and this Exhibit, the following terms have the defined meanings set forth below. Unless the context requires otherwise, (a) words expressed in the plural form include the singular, and vice versa; (b) words expressed in the masculine form include the feminine and gender neutral, and vice versa; (c) the word "will" has the same meaning as the word "shall," and vice versa; (d) the word "or" is not exclusive; (e) the word "extent" in the phrase "to the extent" means the degree to which a subject or other thing extends, and such phrase does not simply mean "if"; (f) references to any law include all rules, regulations, and sub-regulatory guidance promulgated thereunder; (g) the terms "include," "includes," and "including" are deemed to be followed by "without limitation"; and (h) references to dollars or "\$" are to United States dollars.

All capitalized terms herein shall have the same meanings set forth in the Settlement Agreement or in the additional definitions set forth below.

"Adjusted Base Score" has the meaning set forth in Paragraph II(6)(f) of these Allocation Procedures.

"Adjusted Flow Rate" has the meaning set forth in Paragraph II(6)(d) of these Allocation Procedures.

“Base Score” has the meaning set forth in Paragraph II(6)(e) of these Allocation Procedures.

“Baseline Testing” has the meaning set forth in Paragraph II(2) of these Allocation Procedures.

If the federal PFAS MCLs are finalized before the Court issues Final Approval, the final federal PFAS MCLs will be utilized instead of the Proposed Federal PFAS MCL; otherwise, the Proposed Federal PFAS MCLs will be used.

I. Verification of Qualifying Class Members

1. The Claims Administrator will verify that each entity that submitted a Claims Form is a Qualifying Class Member.

- a. A Qualifying Class Member is an Active Public Water System in the United States that has one or more Impacted Water Sources as of May 15, 2024.

2. Exclusions from the Settlement Class:

- a. The City of Marinette Waterworks, denoted as Water System ID “WI4380395” in the SDWIS

(provided, however, that the City of Marinette Waterworks will be included within the Settlement Class if it so requests);

- b. Non-Transient Non-Community Water Systems serving 3,300 or fewer people,
- c. Transient Non-Community Water Systems of any size,
- d. Any Public Water System that is owned by a State government and lacks independent authority to sue and be sued,
- e. Any Public Water System that is owned by the federal government and lacks independent authority to sue and be sued,
- f. Any privately owned well that provides water only to its owner's (or its owner's tenant's) individual household and any other system for the provision of water for human consumption that is not a Public Water System.

3. Validation of Data

- a. The Claims Administrator will review the information provided on a Qualifying Class Member's Claims Form(s) to ensure it is complete. Information about each Impacted Water Source listed by a Class Member shall be submitted with verified supporting documentation as specified in the Claims Form(s).
- b. The Claims Administrator will examine each Impacted Water Source's test results to confirm that all sample results are Qualifying Test Results. This examination will verify membership in the Class and will also be used for scoring purposes as outlined below.
 - i. A Qualifying Test Result means the result of a test conducted by or at the direction of a Class Member or of a federal, state, or local regulatory authority, or any test result reported or provided to the Class Member by a certified laboratory or other Person, that used any state- or federal agency-approved or validated analytical method to analyze Drinking Water or water that is to be drawn or collected into a Class Member's Public Water System.
 - ii. Qualifying Class Members may submit Qualifying Test Results from untreated (raw) or treated (finished) water samples. However, all samples must be drawn from a Water Source that is or was utilized by the Qualifying Class Member to provide Drinking Water.
- c. The Claims Administrator will confirm each Class Member's population served or number of service connections with information provided by the Class Member to the U.S. EPA or a state agency. Any conflicts in population served or service connections data will be resolved in favor of the data most-recently reported to the U.S. EPA or state agency.
- d. For each Impacted Water Source, the Claims Administrator will verify the maximum flow rate of a groundwater well or the flow rate of the water that enters the treatment plant of a surface water system. The Claims Administrator will also verify the three (3) highest annual average flow rates of the groundwater well or surface water system over a ten-year period (2014-2023). Documentation related to the flow rates of each Impacted

Water Source must be verified by each Qualifying Class Member as part of the Claims Form.

- e. Any Qualifying Class Member that has previously submitted information to the Claims Administrator in connection with another PWS Settlement will not need to submit that same information again. Where such information has been provided and is available, it will be applied to the Tyco PWS Settlement in order to allow the Claims Administrator to process verification as efficiently and consistently as possible. Qualifying Class Members will have the opportunity to update information previously provided as needed.
- f. The Claims Administrator will notify Qualifying Class Members with incomplete Claims Forms of the requirements to cure deficiencies.

II. Allocation Procedures

1. Verification:

The Claims Administrator will verify whether each Qualifying Class Member is a Qualifying Class Member by determining whether the Qualifying Class Member has one or more Impacted Water Sources as of May 15, 2024.

2. Baseline Testing

- a. Each Qualifying Class Member must test each of its Water Sources for PFAS, request from the laboratory that performs the analyses all analytical results, including the actual numeric values, and submit detailed PFAS test results to the Claims Administrator on a Claims Form by dates specified below. This process is referred to as Baseline Testing.
- b. Any Qualifying Class Member that has an Impacted Water Source based on a test conducted on or before the Settlement Date does not need to test that Water Source again for purposes of Baseline Testing.
- c. If a Water Source was tested only prior to January 1, 2019, and its test results do not show a Measurable Concentration of PFAS, that Water Source must be retested to meet Baseline Testing requirements. If a Water Source was tested on January 1, 2019, or later, and its test results do not show a Measurable Concentration of PFAS, no further testing of that Water Source is required.
- d. Baseline Testing requires the following:
 - i. PFAS tests must be conducted at a minimum for the 29 PFAS analytes for which UCMR-5 requires testing, and
 - ii. the PFAS test results must report any Measurable Concentration of PFAS, regardless of whether the level of PFAS detected in the water is above or below UCMR-5's relevant minimum reporting level.
- e. Failure to test and submit Qualifying Test Results for Water Sources will disqualify Water Sources from consideration for present and future payments.

3. Non-Detect Water Sources

- a. The Claims Administrator will maintain the reported Baseline Testing results that have no Measurable Concentration of PFAS submitted by Qualifying Class Members.
- b. Water Sources reporting no Qualifying Test Result showing a Measurable Concentration of PFAS may be eligible for funding from the Supplemental Fund.

4. Supplemental Fund

- a. The Escrow Agent will transfer into the Supplemental Fund seven percent (7%) of each payment Tyco has made into the Action Fund in accordance with the Payment Schedule.
- b. The Supplemental Fund will be used to compensate the following Qualifying Class Member's Water Sources:
 - i. Water Sources that were reported in a Public Water System Settlement Claims Form to have no Qualifying Test Result showing a Measurable Concentration of PFAS and because of later PFAS testing obtain a Qualifying Test Result showing a Measurable Concentration of PFAS;
 - ii. Impacted Water Sources that do not exceed an applicable State MCL or the Proposed Federal PFAS MCLs at the time their Claims Forms are submitted and because of later PFAS testing obtain a Qualifying Test Result showing a Measurable Concentration of PFAS that exceeds the Proposed Federal PFAS MCLs or an applicable State MCL;
 - iii. Water Sources for which information was previously submitted in connection with another PWS Settlement, but whose data requires updating to account for any changes in circumstance between previous submission(s) and the Claims Period relevant to the Tyco PWS Settlement.
- c. A Qualifying Class Member may submit a Supplemental Fund Claims Form to the Claims Administrator at any time up to and including December 31, 2030.
- d. The Claims Administrator will individually calculate for each Impacted Water Source that has submitted a Supplemental Fund Claims Form to approximate, as closely as is reasonably possible, the amount that each Impacted Water Source would have been allocated had it been in the Action Fund (Allocated Amount).
- e. The Claims Administrator shall issue funds from the Supplemental Fund in amounts that reflect the difference between the Impacted Water Source's Allocated Amount and what the Qualifying Class Member has already received, if anything, for the Impacted Water Source.
- f. In the event the Supplemental Fund requires additional funding, the Claims Administrator, with the approval of the Special Master, may exercise discretion to replenish the Supplemental Fund from future payment obligations to the Action Fund.
- g. The Claims Administrator shall pay any money remaining in the Supplemental Fund as of December 31, 2033, to the Qualifying Class Members, divided among the Qualifying Class Members in the proportions as prior total payments to each Qualifying Class

Member from all funds established by the Settlement Agreement.

5. Special Needs Fund

- a.** The Escrow Agent will transfer into the Special Needs Fund five percent (5%) of each payment Tyco has made into the Action Fund in accordance with the Payment Schedule.
- b.** Over the last decade, Qualifying Class Members have been faced with how to deal with discovering PFAS in their Impacted Water Sources. Many have also faced state PFAS advisories and regulations. Some Qualifying Class Members or affiliated parties may have responded by taking action(s) to limit PFAS impacts to their customers and Water Sources. Without limiting the possible actions taken by Qualifying Class Members, examples include: taking wells offline, reducing flow rates, drilling new wells, pulling water from other sources, and/or purchasing supplemental water.
- c.** The Special Needs Fund is intended to compensate those Qualifying Class Members that spent money to address PFAS detections in their Impacted Water Sources, including to reimburse or re-pay affiliated parties that took such actions. This is in addition to any other compensation provided by the Settlement.
- d.** A Qualifying Class Member may submit to the Claims Administrator a Special Needs Fund Claims Form up to forty-five (45) calendar days after submitting its Public Water System Settlement Claims Form.
- e.** After receiving all timely Special Needs Fund Claims Forms, the Claims Administrator will review such forms and determine which Qualifying Class Members shall receive additional compensation and the amount of compensation. The Claims Administrator will recommend the awards to the Special Master, who must review and ultimately approve or reject them.
- f.** The Claims Administrator shall pay any money remaining in the Special Needs Fund to the Qualifying Class Members, divided among the Qualifying Class Members in the proportions as prior total payments to each Qualifying Class Member from all funds established by the Settlement Agreement after all Special Needs Claims have been reviewed and paid.

6. Action Fund

- a.** The deadline for Qualifying Class Members to submit a Public Water System Settlement Claims Form for all Impacted Water Sources is sixty (60) calendar days after the Effective Date. This deadline can be extended by the Claims Administrator only if a Qualifying Class Member demonstrates that it has, prior to such deadline, submitted water samples necessary to meet the requirements of Baseline Testing and is awaiting analytical results from a laboratory capable of issuing a Qualifying Test Result.
- b.** The Claims Administrator will calculate payments from the Action Fund after the Escrow Agent has transferred the amounts described above for the Supplemental Fund and the Special Needs Fund. The Action Fund will be allocated to the Qualifying Class Members' Impacted Water Sources using the following allocation methodology.
- c. PFAS Score**

- i. For purposes of calculating each Impacted Water Source’s PFAS Score, the Claims Administrator will examine the Qualifying Class Member’s Public Water System Settlement Claims Form to determine the highest concentration, expressed in parts per trillion (“ppt,” or nanograms per liter), that the Impacted Water Source has shown, according to one or more Qualifying Test Results, for PFOA, for PFOS, and for any other single PFAS analyte listed on the Claims Form.
- ii. The Claims Administrator will determine each Impacted Water Source’s PFAS Score by taking the **GREATER** of either:
 - a. the sum of the maximum levels for PFOA and for PFOS,

$$\text{PFAS Score} = [\text{PFOA (Max Level)} + \text{PFOS (Max Level)}]$$

or

- b. the sum of the maximum levels of PFOA and PFOS averaged with the square root of the maximum level of any other single PFAS analyte listed on the Claims Form.

$$\text{PFAS Score} = \{[\text{PFOA (Max Level)} + \text{PFOS (Max Level)}] + \text{Other PFAS (Max level)}^{0.5}\} / 2$$

Examples of Determining PFAS Score:

CWS 1 owns and operates 4 water sources: Surface Water (SW) System A, Well B, Well C, and Well D. The maximum levels of each PFAS analyte for each Water Source and the PFAS Scores are listed below.

Impacted Water Source	Sum of PFOS + PFOA	Avg. of (PFOA + PFOS) & Max Other PFAS	PFAS Score	Max PFOA	Max PFOS	Max PFNA	Max PFHxS	Max PFHxA
SW System A	62	35.15	62	15	47	8.3	5	0
Well B	0.95	.475	0.95	0.95	0	0	0	0
Well C	0	0	0	0	0	0	0	0
Well D	15.2	27.6	27.6	12	3.2	0	1600	5.2

d. Adjusted Flow Rate

- i. Impacted Water Sources’ flow rates can be reported in the Claims Forms in either gallons per minute (gpm) or Million Gallons per Day (MGD). One thousand (1,000) gpm equals 1.44 MGD because there are one thousand four hundred forty (1,440) minutes in each day. The Claims Administrator must convert the MGD reported flow rates into gpm for all calculations.
- ii. Groundwater water sources should report flow rates from the groundwater well. Surface water sources should report the flow rate of the water that enters the treatment plant.
- iii. The Claims Administrator will determine the Adjusted Flow Rate for each

Impacted Water Source by first averaging the three highest annual average flow rates that the Qualifying Class Member drew from the groundwater Impacted Water Source or that entered the surface water treatment plant. The three highest annual average flow rates can be selected from a ten-year period from 2014-2023. This average will then be averaged with the verified maximum flow rate of a groundwater Impacted Water Source or the maximum flow rate entering a surface water Impacted Water Source.

- iv. If the Qualifying Class Member can demonstrate that an Impacted Water Source was taken off-line or reduced its flow rate as a result of PFAS contamination and additional years are needed to obtain accurate flow rates not impacted by PFAS, the Claims Administrator can consider years beyond the 2014-2023 timeframe.
- v. For purposes of the Allocation Procedures, a Public Water System's multiple intakes from one distinct surface water source are deemed to be a single Water Source so long as the intakes supply the same water treatment plant.
- vi. For purposes of the Allocation Procedures, a Public Water System's intakes from one distinct surface-water source that supply multiple water treatment plants are deemed to each be a separate Water Source.
- vii. For purposes of the Allocation Procedures, a Public Water System's multiple groundwater wells (whether from one distinct aquifer or from multiple distinct aquifers) that supply multiple water treatment plants are deemed to each be a separate Water Source.
- viii. If a water treatment plant is blending both surface water and groundwater before treatment, only one Adjusted Flow Rate is used.
- ix. In the event a Public Water System owns both groundwater wells and surface water system(s) that have separate treatment plants, they shall be deemed to each be a separate Water Source.

e. Base Score Calculations

- i. The Base Score will be calculated using two primary components: a proxy for capital costs and a proxy for operation and maintenance (O&M) costs. Capital costs are driven primarily by the size of the Impacted Water Source. O&M costs are driven primarily by the size of the Impacted Water Source and the concentration of PFAS.

Base Score = Capital Costs Component + Operation and Maintenance Costs Component

ii. Capital Costs Component

- a. U.S. EPA published a revision of its "Work Breakdown Structure-Based Cost Model for Granular Activated Carbon Drinking Water Treatment" in March 2023. This publication includes a Work Breakdown Structure (WBS) model that estimates the cost of treating PFAS contamination based on the flow rate of an Impacted Water System. A cost curve can be

derived from the U.S. EPA WBS which expresses treatment costs in cost per thousand gallons produced. The below “Flow Rate Adjustment Factor” graph is the cost curve relating the treatment cost per thousand gallons as a function of overall size. This cost curve recognizes a decrease in unit cost as the flow rate for an Impacted Water Source increases. Each Impacted Water Source’s Capital Costs Component of the Base Score is calculated off this cost curve.

$$\text{Capital Cost Component} = (\text{EPA unit cost} * \text{flow rate})$$

$$\text{Treatment cost per thousand gallons} = \frac{7.7245 * (\text{Flow Rate})^{-0.281}}$$

$$\text{Capital Cost Score} = \text{annual 1000 G units} * \text{treatment cost per thousand gallons}$$

iii. **Operation and Maintenance Costs Component**

- a. The factors that affect O&M can be complex and depend on a range of factors (including but not limited to influent source quality, pH, temperature, type and concentration of PFAS influent, media used, etc.). However, the volume capacity of treatment media to remove PFAS decreases as the concentration of PFAS increases. This necessitates more frequent replacements of the treatment media, which increases the quantity of spent media that must be discarded. This increases the O&M costs of PFAS treatment.
- b. There is an observed increase in O&M costs as PFAS concentration increases. The available data suggest that as concentrations increase, O&M costs will increase in a non-linear, curved relationship as it is easier and less expensive to remove higher concentrations up to a certain level. The increase in O&M costs is thus a function of the PFAS levels and the size of the system (reflected in the Capital Cost Component). The following equation represents this relative relationship which considers that all Qualifying Class Members will require basic O&M tied to the

Capital Cost Component as well as additional O&M driven by the level of PFAS concentrations.

$$\text{O\&M Cost Component} = ((\text{PFAS Modifier} * \text{PFAS Score}) * \text{Capital Cost Component}) + \text{Capital Cost Component}$$

$$\text{PFAS Modifier} = 0.005$$

- c. The result is an exponential reduction in the unit cost of PFAS removal as PFAS concentrations increase. This exponential effect is captured in part by the Allocation Procedures' nonlinear approach to flow rates and in part by the Allocation Procedures' use of a square-root factor for certain PFAS analytes.
- d. When the Base Score is calculated where the O&M Costs Component and Capital Costs Component are combined, a roughly three-fold difference is obtained over the regulatory threshold of 4 ppt to 1000 ppt. The results of this calculation are shown in the below example for the EPA WBS standard design system at 1494 GPM as a function of relative PFAS concentrations.

$$(\text{EPA unit cost} * \text{flow rate}) + ((\text{PFAS Modifier} * \text{PFAS Score}) * \text{Capital Cost Component}) + \text{Capital Cost Component}$$

Example of Determining Base Score

CWS 1's SW System A has a PFAS Score of 62 and an Adjusted Flow Rate of 1,494 gpm.

Cost per 1,000 gallon production = $7.7245 * (1,494)^{-0.281} = .99$

Annual 1000 gallons units $(1,494 * 60 * 24 * 365) / 1,000 = 785,246$

Capital Costs Component = $785,246 * .99 = 777,828$

O&M Costs Component = $((62 * .005) * 777,828) + 777,828 = 1,018,955$

Base Score = $777,828 + 1,018,955 = 1,796,783$

f. Adjusted Base Score

- i. After calculating the Base Score of each Impacted Water Source, the Claims Administrator then will apply any Bumps based on certain factors defined below. This will yield the Adjusted Base Score for each Impacted Water Source.
- ii. **Regulatory Bump:**
 - a. An Impacted Water Source's Base Score will receive a Regulatory Bump if the Impacted Water Source:
 - i. exceeds the four (4) ppt Proposed Federal PFAS MCL for PFOS or the four (4) ppt Proposed Federal PFAS MCL for PFOA;
 - ii. exceeds the Proposed Federal PFAS MCL Hazard Index (based on 9 ppt PFHxS, 10 ppt GenX chemicals, 10 ppt PFNA, 2000 ppt PFBS – applying the Hazard Index formula set forth in 88 Fed. Reg. 18,638, 18,748 (Mar. 29, 2023) (proposing 40 C.F.R. § 141.61(c)(36) & n.1 (2023)); or
 - iii. exceeds an applicable State MCL that is below the Proposed Federal PFAS MCL for the same PFAS analyte, or exceeds an applicable State MCL for a PFAS analyte for which there is no Proposed Federal PFAS MCL.
 - b. The Claims Administrator will consider all Proposed Federal PFAS MCLs and existing State MCLs for PFAS analytes existing on the date the Court issues a Final Approval to determine if an Impacted Water Source has ever exceeded any applicable standard.
 - c. The Claims Administrator will adjust the Base Score for those Impacted Water Sources that are subject to the Regulatory Bump by

a positive adjustment factor of 4.00.

iii. Litigation Bump

- a. The Litigation Bump applies to the Impacted Water Sources of any Qualifying Class Member that, as of the Settlement Date, had pending Litigation in the United States of America in which it asserts against any Released Party any Claim related to alleged actual or potential PFAS contamination of Drinking Water.
- b. No more than one Litigation Bump may apply to an Impacted Water Source.
- c. For cases on file by December 31, 2020, the Claims Administrator will adjust the Base Score for those Impacted Water Sources by a positive adjustment factor of 0.25.
- d. For cases filed in 2021, the Claims Administrator will adjust the Base Score for those Impacted Water Sources by a positive adjustment factor of 0.20.
- e. For cases filed in 2022, the Claims Administrator will adjust the Base Score for those Impacted Water Sources by a positive adjustment factor of 0.15.
- f. For cases filed in 2023, the Claims Administrator will adjust the Base Score for those Impacted Water Sources by a positive adjustment factor of 0.10.
- g. For cases filed between January 1, 2024 and the Settlement Date, the Claims Administrator will adjust the Base Score for those Impacted Water Sources by a positive adjustment factor of 0.05.

iv. Public Water Provider Bellwether Bump

- a. The Public Water Provider Bellwether Bump applies to any Impacted Water Source that is owned or operated by a Qualifying Class Member that served as one of the thirteen Public Water Provider Bellwether Plaintiffs listed in Exhibit J as either a Water Provider Bellwether Case and/or a Telomer Water Provider Bellwether Case.
- b. More than one Public Water Provider Bellwether Bump can be applied to an Impacted Water Source (i.e., the Qualifying Class Members selected as Tier 2 Public Water Provider Bellwether Plaintiffs will receive all two adjustments provided below).
- c. The Claims Administrator will adjust the Base Scores for Qualifying Class Members that were selected as one of the thirteen Tier One Water Provider Bellwether cases by a positive adjustment factor of 0.15.

- d. The Claims Administrator will adjust the Base Scores for Qualifying Class Members that were selected as one of the three Tier Two Water Provider Bellwether cases by a positive adjustment factor of 0.20.
- e. The Claims Administrator will adjust the Base Scores for the Qualifying Class Members that were selected as the Tier 2 Telomer Water Provider Bellwether cases by a positive adjustment factor of 0.30.
- v. For each Impacted Water Source, the Claims Administrator will sum the applicable Bump adjustments and multiply the summed adjustments by the Base Score. Then, the Claims Administrator will take this total and add it to the Base Score to determine the Adjusted Base Score.

$$\text{Adjusted Base Score} = (\text{Sum of Adjustments} * \text{Base Score}) + \text{Base Score}$$

Example of Determining Adjusted Base Score

CWS 1's SW System A's PFAS levels exceed the Proposed Federal PFAS MCL. CWS 1 filed a lawsuit in the AFFF MDL on November 1, 2022, against Tyco and it was not selected as a Public Water Provider Bellwether Plaintiff. System A will receive the following Bumps:

Regulatory Bump:	4.00
<u>Litigation Bump:</u>	<u>0.15</u>
Total Adjustment:	4.15

Adjusted Base Score = (Sum of Adjustments * Base Score) + Base Score

$(4.15 * 1,796,783) + 1,796,783 = \underline{\underline{9,253,432.5}}$

g. Settlement Award

The Claims Administrator will first divide an Impacted Water Source's Adjusted Base Score by the sum of all Adjusted Base Scores. This number gives each Impacted Water Source its percentage of the Action Fund. Then, that percentage is multiplied by the Action Fund to provide the Settlement Award for each Impacted Water Source.

$$\text{Settlement Award} = (\text{Adjusted Base Score} / \text{Sum of All Adjusted Base Scores}) * (\text{Action Fund})$$

h. Claims Administrator Notification to Qualifying Class Members

The Claims Administrator will notify each Qualifying Class Member of the Settlement Awards for all its Impacted Water Sources. Class Counsel and Tyco shall simultaneously receive copies of all such notices, as well as a report on the allocation of all amounts paid to Qualifying Class Members.

i. Requests for Reconsideration to the Claims Administrator

- i. After a Qualifying Class Member receives notification of its Settlement Award from the Claims Administrator, it will have ten (10) Business Days

from the receipt of such notification to request that the Special Master reconsider a part of the calculation based on a mistake/error alleged to have occurred. The Qualifying Class Member has no other appellate rights.

- ii. After they receive notification from the Claims Administrator, Tyco and Class Counsel shall each have ten (10) Business Days to request that the Special Master reconsider any of the calculations based on a mistake/error alleged to have occurred.
- iii. After the Special Master receives all timely requests for reconsideration, the Special Master within ten (10) Business Days shall make a decision on the request for reconsideration, and, if warranted will request that the Claims Administrator correct any mistakes/errors and run the calculations again. Except when Section 8 of the Settlement Agreement provides otherwise, any decision by the Special Master is final, binding, and non-appealable.

j. Payments for the Action Fund

Tyco shall make payments for the Action Fund in multiple installments over time, as set forth in the Payment Schedule in Exhibit H. The total amount of all payments described in this Paragraph will be \$750,000,000. Within five (5) Business Days after each payment described in the Payment Schedule in Exhibit H, the Escrow Agent shall transfer seven percent (7%) of the payment amount into the Supplemental Fund and five percent (5%) of the payment amount into the Special Needs Fund.

Name or description of the Water Source.

Note: This is the name or unique identifier listed on the testing laboratory chain of custody document.

Is this a ground water well or surface water system?

Please enter "Groundwater well" or "Surface water system."

Note: Please enter "Surface water system" if a treatment plant is blending groundwater and surface water before treatment. Both systems are considered a surface water system.

Estimated date of first PFAS exposure to your water system (be as specific as possible).

What is the basis for the estimate above?

WATER SOURCE QUESTIONS (CHECK YES OR NO)

YES

NO

Does the PWS own this Water Source?

Does the PWS operate this Water Source?

Is this Water Source a purchased water connection?

Has the water from this Water Source ever been used as Drinking Water?

Was this Water Source tested or otherwise analyzed for PFAS and found to contain any Measurable Concentration of PFAS on or before May 15, 2024?

FLOW RATE CAPACITY

Please answer the below questions indicating the maximum flow rate capacity for the Water Source. Please enter the measurement in total gallons per year (GPY), gallons per minute (GPM), or million gallons per day (MGD).

FLOW RATE QUESTIONS	GPY	GPM	MGD
If this Water Source is a groundwater well, please enter the maximum flow rate capacity of the groundwater pump.			
If this Water Source is a surface water system, please enter the maximum flow rate capacity of the water that enters the treatment plant.			
How was the maximum flow rate capacity determined?			

For the following years, please enter the ACTUAL ANNUAL flow rate for the Impacted Water Source. If the flow rate was reduced or the source was taken offline due to PFAS contamination, please indicate by checking the box corresponding to that year.

Note: Please enter the measurement in total gallons per year (GPY) OR gallons per minute (GPM) OR million gallons per day (MGD). If the source was not active in a particular year, please enter "0" (zero) for the Actual Annual Flow Rate. Flow rates should be based on a 12 month period regardless of how many months the source was in operation during the year.

YEAR	GPY	GPM	MGD	Was the Annual Flow Rate reduced due to PFAS Contamination?
<i>Flow Rate Calculations</i>	<i>= GPM * 1,440 Minutes Per Day * 365 Days Per Year</i>	<i>= GPY ÷ 1,440 ÷ 365</i>	<i>= (GPM * 1,440) ÷ 1,000,000</i>	<i>(Yes or No)</i>

ADDITIONAL FLOW RATE INFORMATION (IF NECESSARY)

Each PWS is required to provide data for at least 3 years for which the actual annual flow rate (AAFR) was not reduced due to PFAS contamination, if available. If the PWS did not provide data for at least 3 years in which the AAFR was not reduced due to PFAS contamination (in the table above), please use the space below to provide additional information as needed. For example, if the AAFR for 9 of the previous 10 years has been reduced due to PFAS contamination, the PWS should provide 2 years of data below for the most recent unimpacted years.

<i>Flow Rate Calculations</i>	<i>= GPM * 1,440 Minutes Per Day * 365 Days Per Year</i>	<i>= GPY ÷ 1,440 ÷ 365</i>	<i>= (GPM * 1,440) ÷ 1,000,000</i>

A PWS should ONLY complete this Supplemental Claims Form for Water Sources that meet one or more of the following criteria: (i) Water Sources that were reported to have no Measurable Concentration (any level) of PFAS as of May 15, 2024 and because of later PFAS testing obtained a Qualifying Test Result showing a Measurable Concentration of PFAS; (ii) Water Sources with a positive PFAS detection as of May 15, 2024 that did not exceed an applicable State MCL or the Proposed Federal PFAS MCLs at the time the PWS submitted its Claims Form but later exceeded the Proposed Federal PFAS MCLs or an applicable State MCL, whether due to new test results or a change in the applicable MCLs.

TO RECEIVE BENEFITS FROM THIS SETTLEMENT, YOU MUST PROVIDE ALL OF THE REQUIRED (*) INFORMATION BELOW AND YOU MUST SIGN THIS CLAIMS FORM. THIS CLAIMS FORM SHOULD ONLY BE USED IF A CLAIM IS BEING MAILED IN AND IS NOT BEING FILED ONLINE. YOU MAY ALSO FILE YOUR CLAIM ONLINE AT www.PFASWaterSettlement.com.

For the Supplemental Claims Form to be valid, Claimants must provide ALL information requested concerning the Public Water System (PWS) and its groundwater wells and/or surface water systems ("Water Source").

Baseline Testing: If a Water Source was tested only prior to January 1, 2019, and its test results do not show a Measurable Concentration of PFAS, that Water Source must be retested to meet Baseline Testing requirements. If a Water Source was tested on January 1, 2019, or later, and its test results do not show a Measurable Concentration of PFAS, no further testing of that Water Source is required. Test results may be submitted from untreated (raw) or treated (finished) water samples. However, all samples must be drawn from a Water Source that has been used to provide Drinking Water.

Interrelated Drinking Water System (IDWS) Addendum

INSTRUCTIONS

Please complete and submit the information below for EACH Water Source included in an interrelated Drinking Water system (IDWS).

Note: The Class as defined is composed of Public Water System, or "PWS". The term "Public Water System" as defined in the Settlement Agreement, includes owners, operators and/or funders of PWS that meet the Class definition. Those owners, operators and/or funders are in an interrelated Drinking Water system relationship with the PWS they own, operate and/or fund. Additionally, wholesalers and retailers are in an interrelated Drinking Water system relationship, as explained in the Parties' Joint Interpretive Guidance. Without limiting the potential kinds of interrelated Drinking Water system relationships, this form is for entities who wish to explain how their Claims may relate to or be understood within the context of another entity's Claims.

Please complete this Addendum for each Water Source included in an IDWS. For those Water Sources not included in an IDWS, the PWS should complete and submit information for each of those Water Sources via the Public Water System Settlement Claims Form and Addendum X as applicable.

The Custodian/Escrow Account shall use the accrual method of accounting as defined in Section 446(c) of the Code.

6. Tax Payments. All Taxes and Tax Expenses (each as defined in the Settlement Agreement) with respect to the Custodian/Escrow Account, as more fully described in the Settlement Agreement, shall be treated as and considered to be a cost of administration of the Custodian/Escrow Account and the Custodian/Escrow Agent shall timely pay such Taxes and Tax Expenses out of the Settlement Funds without prior order of the Court, as directed by the Special Master and in accordance with the Settlement Agreement. The Special Master shall be responsible for the timely and proper preparation and delivery of any necessary documentation for signature by all necessary parties, and the timely filing of all tax returns and other tax reports required by law with respect to the Custodian/Escrow Account. The Special Master shall be responsible for ensuring that the Custodian/Escrow Account complies with all withholding requirements (including by instructing the Custodian/Escrow Agent to withhold any required amounts) with respect to payments made by the Custodian/Escrow Account. The Custodian/Escrow Agent, as directed by the Special Master, will deduct and withhold any Taxes required to be deducted and withheld by applicable law, including but not limited to required withholding in the absence of proper Tax documentation, and shall remit such Taxes to the appropriate authorities in accordance with applicable law. Any amounts deducted or withheld by the Custodian/Escrow Agent (or any other withholding agent) with respect to payments made by the Custodian/Escrow Account shall be treated for all purposes as though such amounts had been distributed to the Person in respect of which such deduction or withholding was made. The Custodian/Escrow Agent shall not be responsible for any income reporting to the IRS with respect to income earned on the Settlement Funds, however the Custodian/Escrow Agent shall comply with all instructions received from the Special Master regarding the withholding of any amount on account of Taxes and shall cooperate with other requests made by the Special Master to enable the Special Master to fulfill its responsibilities under the Settlement Agreement with respect to tax matters.

7. Disbursement Instructions

- (a) The Custodian/Escrow Agent shall hold and release the Settlement Funds as follows:
 - i. Solely to the extent the Custodian/Escrow Agent has previously received a notice from an Authorized Representative of Tyco confirming the occurrence of the Effective Date: upon receipt of a Special Master Release Instruction with respect to the Settlement Funds, the Custodian/Escrow Agent shall promptly, but in any event within two (2) Business Days after receipt of a Special Master Release Instruction, disburse all or part of the Settlement Funds in accordance with such Special Master Release Instruction. “Special Master Release

Instruction” means written instruction executed by an Authorized Representative of the Special Master and by an Authorized Representative of Class Counsel directing the Custodian/Escrow Agent to disburse all or a portion of the Settlement Funds to pay, disburse, reimburse, hold, waive, or satisfy any monetary obligation provided for or recognized under any of the terms of the Settlement Agreement.

- ii. Upon receipt of a Joint Release Instruction with respect to the Settlement Funds, the Custodian/Escrow Agent shall promptly, but in any event within two (2) Business Days after receipt of a Joint Release Instruction, disburse all or part of the Settlement Funds in accordance with such Joint Release Instruction. A “Joint Release Instruction” means the joint written instruction executed by an Authorized Representative of Class Counsel and by the necessary Authorized Representatives of Tyco, directing the Custodian/Escrow Agent to disburse all or a portion of the Settlement Funds.
 - iii. Upon receipt of a Termination Release Instruction with respect to the Settlement Funds, the Custodian/Escrow Agent shall promptly, but in any event within two (2) Business Days after receipt of a Termination Release Instruction, disburse all of the Settlement Funds in accordance with such Termination Release Instruction. The Custodian/Escrow Agent will act on such Termination Release Instruction without further inquiry. “Termination Release Instruction” means written instruction executed by the necessary Authorized Representatives of Tyco directing the Custodian/Escrow Agent to disburse all or a portion of the Settlement Funds to Tyco or their respective designees pursuant to Paragraphs 9.11-13 and/or 10.4 of the Settlement Agreement.
- (b) Any instructions setting forth, claiming, containing, objecting to, or in any way related to the transfer or distribution of any funds on deposit in the Custodian/Escrow Account under the terms of this Agreement must be in writing, executed by the appropriate Party or Parties (pursuant to Section 7(a)) as evidenced by the signatures of the person or persons set forth on Exhibit A-1, Exhibit A-2, and Exhibit A-3 (the “Authorized Representatives”) and delivered to the Custodian/Escrow Agent. In the event funds transfer instructions are given (other than in writing at the time of execution of this Agreement), whether in writing, by facsimile, e-mail, telecopier or otherwise, Custodian/Escrow Agent will seek confirmation of such instructions by telephone call back when new wire instructions are established to the applicable Authorized Representatives only if it is reasonably necessary, and Custodian/Escrow Agent may rely upon the confirmations of anyone purporting to be the Authorized Representatives. To assure accuracy of the instructions it receives, Custodian/Escrow Agent may record such call backs. If Custodian/Escrow Agent is unable to verify

the instructions, or is not satisfied with the verification it receives, it shall not execute the instruction until all issues have been resolved. The persons and telephone numbers for call backs may be validly changed only in a writing that (i) is signed by the party changing its notice designations, and (ii) is received and acknowledged by Custodian/Escrow Agent. If it is determined that the transaction was delayed or erroneously executed as a result of Custodian/Escrow Agent's error, Custodian/Escrow Agent's sole obligation is to pay or refund the amount of such error and any amounts as may be required by applicable law. Any claim for interest payable will be at the then-published rate for United States Treasury Bills having a maturity of 91 days.

- (c) Except in the case of gross-negligence, willful misconduct or bad faith, the Custodian/Escrow Agent shall not be liable for any losses, costs or expenses arising directly or indirectly from the Custodian/Escrow Agent's reliance upon and compliance with such instructions notwithstanding such instructions conflict or are inconsistent with a subsequent written instruction. The party providing electronic instructions agrees; (i) to assume all risks arising out of the use of such electronic methods to submit instructions and directions to the Custodian/Escrow Agent, including, without limitation, the risk of the Custodian/Escrow Agent acting on unauthorized instructions, and the risk of interception and misuse by third parties; (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting instructions to the Custodian/Escrow Agent and that there may be more secure methods of transmitting instructions than the method(s) selected by the Custodian/Escrow Agent; and (iii) that the security procedures (if any) to be followed in connection with its transmission of instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances.

8. Fees. The Custodian/Escrow Agent shall be entitled to compensation for its services as stated in the fee schedule attached as Exhibit C. All fees and expenses of Custodian/Escrow Agent shall be paid solely from the Settlement Funds. The Custodian/Escrow Agent may pay itself such fees from the Settlement Funds only after such fees have been approved for payment pursuant to a Joint Release Instruction. If Custodian/Escrow Agent is asked to provide additional services a separate agreement and fee schedule will be entered into.

9. Duties, Liabilities and Rights of Custodian/Escrow Agent. This Custodian/Escrow Agreement sets forth all of the obligations of Custodian/Escrow Agent, and no additional obligations shall be implied from the terms of this Custodian/Escrow Agreement or any other agreement, instrument or document.

- (a) Custodian/Escrow Agent may act in reliance upon any instructions, notice,

certification, demand, consent, authorization, receipt, power of attorney or other writing delivered to it by the applicable Authorized Representatives, as provided herein, without being required to determine the authenticity or validity thereof or the correctness of any fact stated therein, the propriety or validity of the service thereof. Custodian/Escrow Agent may act in reliance upon any signature which is reasonably believed by it to be genuine, and may assume that such person has been properly authorized to do so.

- (b) Custodian/Escrow Agent may consult with legal counsel of its selection in the event of any dispute or question as to the meaning or construction of any of the provisions hereof or its duties hereunder, and it shall incur no liability and shall be fully protected to the extent Custodian/Escrow Agent acts in accordance with the reasonable opinion and instructions of counsel. Custodian/Escrow Agent shall have the right to reimburse itself for reasonable legal fees and reasonable and necessary disbursements and expenses actually incurred from the Custodian/Escrow Account only (i) upon a Joint Release Instruction or (ii) pursuant to an order of the Court.
- (c) The Custodian/Escrow Agent, or any of its affiliates, is authorized to manage, advise, or service any money market mutual funds in which any portion of the Settlement Funds may be invested.
- (d) Custodian/Escrow Agent is authorized to hold any treasuries held hereunder in its federal reserve account.
- (e) The Custodian/Escrow Agent will furnish monthly statements to the Parties setting forth the activity in the Custodian/Escrow Account.
- (f) Custodian/Escrow Agent shall not bear any risks related to the investment of the Settlement Funds in accordance with the provisions of paragraph 3 of this Custodian/Escrow Agreement. The Custodian/Escrow Agent will be indemnified by the Settlement Funds, and held harmless against, any and all claims, suits, actions, proceedings, investigations, judgments, deficiencies, damages, settlements, liabilities and expenses (including reasonable legal fees and expenses of attorneys chosen by the Custodian/Escrow Agent) as and when incurred, arising out of or based upon any act, omission, alleged act or alleged omission by the Custodian/Escrow Agent or any other cause, in any case in connection with the acceptance of, or performance or non-performance by the Custodian/Escrow Agent of, any of the Custodian/Escrow Agent's duties under this Agreement, except as a result of the Custodian/Escrow Agent's bad faith, willful misconduct or gross negligence.
- (g) Upon distribution of all of the funds in the Custodian/Escrow Account pursuant to the terms of this Custodian/Escrow Agreement and any orders

of the Court, Custodian/Escrow Agent shall be relieved of any and all further obligations and released from any and all liability under this Custodian/Escrow Agreement, except as otherwise specifically set forth herein.

- (h) In the event any dispute shall arise between the parties with respect to the disposition or disbursement of any of the assets held hereunder, the Custodian/Escrow Agent shall be permitted to interplead all of the assets held hereunder into the Court, and thereafter be fully relieved from any and all liability or obligation with respect to such interpleaded assets. The parties further agree to pursue any redress or recourse in connection with such a dispute, without making the Custodian/Escrow Agent a party to same.

10. Non-Assignability by Custodian/Escrow Agent. Custodian/Escrow Agent's rights, duties and obligations hereunder may not be assigned or assumed without the written consent of the persons necessary for a Joint Release Instruction.

11. Resignation of Custodian/Escrow Agent. Custodian/Escrow Agent may, in its sole discretion, resign and terminate its position hereunder at any time following 120 days prior written notice to the parties to the Custodian/Escrow Agreement herein. On the effective date of such resignation, Custodian/Escrow Agent shall deliver this Custodian/Escrow Agreement together with any and all related instruments or documents and all funds in the Custodian/Escrow Account to the successor Custodian/Escrow Agent, subject to this Custodian/Escrow Agreement. If a successor Custodian/Escrow Agent has not been appointed prior to the expiration of 120 days following the date of the notice of such resignation, then Custodian/Escrow Agent may petition the Court for the appointment of a successor Custodian/Escrow Agent, or other appropriate relief. Any such resulting appointment shall be binding upon all of the parties to this Custodian/Escrow Agreement.

**NOTICE OF PROPOSED CLASS ACTION SETTLEMENT AND
COURT APPROVAL HEARING**

TO: All Active Public Water Systems in the United States of America that have one or more Impacted Water Sources as of May 15, 2024.

A FEDERAL COURT APPROVED THIS NOTICE. PLEASE READ THIS NOTICE CAREFULLY, AS THE PROPOSED SETTLEMENT DESCRIBED BELOW MAY AFFECT YOUR LEGAL RIGHTS AND PROVIDE YOU WITH POTENTIAL BENEFITS. THIS IS *NOT* A NOTICE OF A LAWSUIT AGAINST YOU OR A SOLICITATION FROM A LAWYER.

All capitalized terms not otherwise defined herein shall have the meanings set forth in the Settlement Agreement, available for review at www.PFASWaterSettlement.com.

I. WHAT IS THE PURPOSE OF THIS NOTICE?

The purpose of this Notice is (i) to advise you of a proposed settlement (referred to as the “Settlement”) that has been reached with the defendant, Tyco Fire Products LP (“Tyco or “Defendant”) in the above-captioned lawsuit (the “Action”) pending in the multi-district litigation in the United States District Court for the District of South Carolina (the “Court”); (ii) to summarize your rights in connection with the Settlement; and (iii) to inform you of a Court hearing to consider whether to grant final approval of the Settlement, to be held on **DATE** at **TIME**, before the Honorable Richard M. Gergel, United States District Judge of the United States District Court for the District of South Carolina, located at 85 Broad Street, Charleston, South Carolina 29401.

If you received this Notice about the proposed Settlement in the mail, then you have been identified as a potential Class Member according to the Parties’ records.

Please read this Notice carefully.

II. WHAT IS THE ACTION ABOUT?

Class Representatives are Active Public Water Systems that have filed actions against Tyco and other defendants, which actions are currently pending in the above-referenced multidistrict litigation (“MDL”).

Class Representatives have alleged that they have suffered harm resulting from the presence of PFAS in Drinking Water and/or the need to monitor for the presence of PFAS in Drinking Water, and that Tyco is liable for damages and other forms of relief to compensate for such harm and costs.

In addition to the MDL, certain other cases asserting Released Claims are pending against Tyco (collectively with the MDL, the “Litigation”).

There are numerous defendants in addition to Tyco in the MDL and the cases that comprise the Litigation. Those other defendants are not part of this Settlement Agreement. The Class Representatives and Class Members will remain able to seek separate and additional PFAS-related recoveries from those other defendants in addition to the Settlement Amount here.

Tyco denies the allegations in the Litigation and all other allegations relating to the Released Claims; denies that it has any liability to Class Representatives, the Settlement Class, or any Class Member for any Claim of any kind; and would assert a number of legal and factual defenses against such Claims if they were litigated to conclusion (including against certification of any purported class for litigation purposes).

This Notice should not be understood as an expression of any opinion by the Court as to the merits of the Class Representatives’ Claims or the Defendant’s defenses.

III. WHO IS PART OF THE PROPOSED SETTLEMENT?

The Class Representatives and Tyco have entered into the Settlement Agreement to resolve Claims relating to PFAS contamination of Drinking Water in Public Water Systems. The Court has preliminarily approved the Settlement Agreement as fair, reasonable, and adequate. The Court will hold a Final Fairness Hearing, as described below, to consider whether to grant final approval of the Settlement.

The Settlement Class is defined as follows:

Every Active Public Water System in the United States of America that has one or more Impacted Water Sources as of May 15, 2024.

Not all Active Public Water Systems are potential Class Members; specifically excluded from the Settlement Class are:

- i. Any privately owned well that provides water only to its owner’s (or its owner’s

- tenant's) individual household and any other system for the provision of water for human consumption that is not a Public Water System.
- ii. Non-Transient Non-Community Water Systems serving 3,300 or fewer people;
 - iii. Transient Non-Community Water Systems of any size;
 - iv. The City of Marinette Waterworks, denoted as Water System ID "WI4380395" in the SDWIS; provided, however, that the City of Marinette Waterworks will be included within the Settlement Class if it so requests.
 - v. Any Public Water System that is owned by a State government and lacks independent authority to sue and be sued.
 - vi. Any Public Water System that is owned by the federal government and lacks independent authority to sue and be sued.

Per the Settlement Agreement, "Public Water System" means: a system for the provision to the public of water for human consumption through pipes or other constructed conveyances, if such system has at least fifteen (15) service connections or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days out of the year, consistent with the use of that term in the Safe Drinking Water Act 42 U.S.C § 300f(4)(A) and 40 C.F.R. Part 141. The term "Public Water System" includes (i) any collection, treatment, storage, and distribution facilities under control of the operator of such system and used primarily in connection with such system, and (ii) any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system. Solely for purposes of this Settlement Agreement, the term "Public Water System" refers to a Community Water System of any size or a Non-Transient Non-Community Water System that serves more than 3,300 people, according to SDWIS, the owner and/or operator of such Public Water Systems, or any Person (but not any financing or lending institution) that has legal authority or responsibility (by statute, regulation, other law, or contract) to fund or incur financial obligations for the design, engineering, installation, operation, or maintenance of any facility or equipment that treats, filters, remediates, or manages water that has entered or may enter Drinking Water or any Public Water System. It is the intention of this Agreement that the definition of "Public Water System" be as broad, expansive, and inclusive as possible.

Community Water System means a Public Water System that serves at least fifteen (15) service connections used by year-round residents or regularly serves at least twenty-five (25) year-round residents, consistent with the use of that term in the Safe Drinking Water Act, 42 U.S.C. § 300f(15), and 40 C.F.R. Part 141. Included in this definition are the owner and/or operator of such a system.

Non-Transient Non-Community Water System means a Public Water System that is not a Community Water System and that regularly serves at least twenty-five (25) of the same persons over six (6) months per year, consistent with the use of that term in 40 C.F.R. Part 141. Included in this definition are the owner and/or operator of such a system.

Transient Non-Community Water System means a Public Water System that is not a Community Water System and that does not regularly serve at least twenty-five (25) of the same persons over six (6) months per year, consistent with the use of that term in 40 C.F.R. Part 141. Included in this definition are the owner and/or operator of such a system.

SDWIS means the U.S. EPA Safe Drinking Water Information System Federal Reporting Services system, as of May 15, 2024.

IV. WHAT ARE THE KEY TERMS OF THE PROPOSED SETTLEMENT?

The key terms of the proposed Settlement are as follows.

1. **Settlement Amount.** Tyco has agreed to pay \$750,000,000.00 (the “Settlement Amount”), subject to final approval of the Settlement by the Court and certain other conditions specified in the Settlement Agreement. Payments to Qualifying Class Members will be referred to as “Settlement Awards.” In no event shall Tyco be required under the Settlement Agreement to pay any amounts above the Settlement Amount. Any fees, costs, expenses, or incentive awards payable under the Settlement Agreement shall be paid out of, and shall not be in addition to, the Settlement Amount.

2. **Settlement Benefit.** Each Class Member that has not excluded itself from the Settlement Class will be eligible to receive a settlement check(s) from the Claims Administrator based on the Allocation Procedures developed by Class Counsel, which are subject to final approval by the Court as fair and reasonable.

3. **Settlement Administration.** The Court has appointed a Special Master and Claims Administrator pursuant to Rule 53 of the Federal Rules of Civil Procedure (FRCP) to oversee the allocation of the Settlement Funds. They will adhere to their duties set forth herein and in the Settlement Agreement. The Special Master will generally oversee the Claims Administrator and make any final decision(s) related to any appeals by Qualifying Class Members or Tyco and any ultimate decision(s) presented by the Claims Administrator. The Claims Administrator will perform the actual modeling, allocation, and payment distribution functions. The Claims Administrator will seek assistance from the Special Master when needed. The Claims Administrator may also seek the assistance of the Class Counsel’s consultants who assisted in providing guidance in designing the Allocation Procedures. The Opt Out Administrator is in charge of the Opt Out portal and will track and report on all Requests for Exclusion received.

4. **Allocation Procedures Overview.** The Allocation Procedures (attached as Exhibit A to the Settlement Agreement) were designed to fairly and equitably allocate the Settlement Amount among Qualifying Class Members to resolve PFAS contamination of Drinking Water in Public Water Systems in such a way that reflects factors used in designing a water treatment system in connection with such contamination. The volume of impacted water and the degree of impact are the main factors in calculating the cost of treating PFAS; the Allocation Procedures use formulas to arrive at the amounts due to equitably compensate Qualifying Class Members for PFAS-related treatment.

5. **Claims Form Process.** The Claims Administrator will verify that each entity that submits a Claim Form is a Qualifying Class Member.

- A Qualifying Class Member is an Active Public Water System in the United States that has one or more Impacted Water System as of May 15, 2024. Each Qualifying Class Member must test each of its Water Sources for PFAS; request from the laboratory that performs the analyses all analytical results, including the actual numeric values of all analytical results; and submit or cause the testing laboratory to submit detailed PFAS test results to the Claims Administrator. Claims Form(s) must be submitted by the dates specified below and on the Settlement website, available at www.PFASWaterSettlement.com. The Claims Administrator will establish three separate funds for the benefit Qualifying Class Members. Such Class Members will be eligible for compensation from at least one and potentially more of these funds. These funds and the criteria the Claims Administrator will use to determine the amount each Qualifying Class Member will receive from them are fully described in the Allocation Procedures in Exhibit A to the Settlement Agreement.

The initial step for establishing Settlement Class eligibility for compensation from the Settlement Amount is the completion of the relevant Claims Form. The term “Claims Form” may refer to any of four separate forms:

1. Action Fund Claims Form;
2. Supplemental Fund Claims Form;
3. Special Needs Fund Claims Form;
4. Interrelated Drinking Water System Claims Form addendum.

These Claims Forms will be available online at the Settlement website and can be submitted to the Claims Administrator electronically or on paper. The Claims Forms will vary depending on the specific fund or funds from which compensation is sought.

The Claims Administrator will review each Claims Form, verify the completeness of the data it contains, and follow up as appropriate, including notifying Class Members of the need to cure deficiencies in their submission(s), if any. Based on the data in the Claims Forms, the Claims Administrator will then confirm Class membership and determine the amount each Class Member is owed from each fund from which the Class Member seeks compensation. Should any portion of the Settlement Amount remain following the completion of the Claims Forms process, it will be distributed to Qualifying Class Members on a pro rata basis as explained in the Settlement Agreement and Allocation Procedures. None of any such remaining Settlement Amount shall be returned to Tyco.

Any Qualifying Class Member who has submitted information through the Claims Administrator’s website pursuant to previous PWS settlements will not need to re-submit that same

information. Qualifying Class Members will have the opportunity to update previously provided information to bring their submission(s) current and/or reflect new information.

5. **Payment of Settlement Amount.** Tyco shall pay or cause to be paid the Settlement Amount in accordance with the Settlement Agreement in full, in accordance with the payment terms set forth in the Settlement Agreement. If the Settlement does not become final, Tyco is entitled to a refund of the unused Settlement Funds, and no distribution to Class Members will occur.

6. **Release.** All Class Members that have not excluded themselves from the Settlement Class will release certain Claims against Tyco, its affiliates, predecessors, and successors, and certain other Persons and entities as set forth in the Settlement Agreement. This is referred to as the “Release.” Generally speaking, the Release will prevent any Class Member from bringing any lawsuit against Tyco or making any Claims resolved by the Settlement Agreement.

The Release, as set forth in Section 12 of the Settlement Agreement, will be effective as to every Class Member that has not excluded itself from the Settlement Class, regardless of whether or not that Class Member files a Claims Form or receives any distribution from the Settlement.

7. **Attorney Fee/Litigation Cost and Class Representative Awards.** The Court will determine the amounts of attorneys’ fees and expenses to award to Class Counsel from the Settlement Amount for investigating the facts and law in the Action, the massive amount of litigation surrounding the Action, the trial preparations, and negotiating the proposed Settlement. Class Counsel will request a Class award of attorneys’ fees and costs. Class Counsel will make their Class award request in a motion for attorneys’ fees and costs in accordance with Section 9.10 of the Settlement Agreement. Class Counsel intend to file a motion for a Class award of attorneys’ fees and costs, to be paid from the Qualified Settlement Fund, in lieu of the Common Benefit Holdback provided for under Case Management Order No. 3.

Class Counsel will make their request in a motion to be filed with the Court not less than twenty (20) calendar days before Objections are due pursuant to Paragraphs 9.4, 9.9, and 9.10 of the Settlement Agreement. After the motion is filed, copies will be available from Class Counsel, the Settlement website (www.PFASWaterSettlement.com), or the Court docket for *City of Camden, et al., v. Tyco Fire Products LP*, No. 2:24-cv-02321-RMG. Any attorneys’ fees, costs, and expenses approved by the Court will be paid from the Settlement Amount.

8. **Settlement Administration.** All fees, costs, and expenses incurred in the administration and/or work by the Notice Administrator, including fees, costs, and expenses of the Notice Administrator, as well as the costs of distributing notice, shall be paid from the Settlement Amount. All fees, costs, and expenses incurred in the administration and/or work by the Claims Administrator, including fees, costs, and expenses of the Claims Administrator, shall be paid from the Settlement Amount. All fees, costs, and expenses incurred in the administration of the Requests for Exclusion and/or work by the Opt Out Administrator, including fees, costs, and expenses of the Opt Out

Administrator, shall be paid from the Settlement Amount. All fees, costs, and expenses incurred in the administration and/or work by the Special Master, including fees, costs, and expenses of the Special Master, shall be paid from the Settlement Amount. All fees, costs, and expenses incurred in the administration and/or work for the Qualified Settlement Fund, including fees, costs, and expenses of the Escrow Agent, shall be paid from the Settlement Amount. Tyco shall have no obligation to pay any such fees, costs, and expenses other than the Settlement Amount.

9. ***Dismissal of the Litigation.*** If the Settlement is approved by the Court and becomes final, all pending Litigation will be dismissed with prejudice to the extent it contains Released Claims. If the Settlement is not approved by the Court or does not become final for any reason, the Litigation will continue, and Class Members will not be entitled to receive any Settlement Award.

10. ***Interpretive Guidance.*** Additional documents are available to provide guidance on how to apply the Settlement Agreement in specific scenarios, which can be accessed by Class Members at www.PFASwatersettlement.com. The Interpretive Guidance provided on the website is particularly relevant for gaining a comprehensive understanding of various aspects related to the Settlement Agreement. The Interpretive Guidance documents are:

i. **The Parties' Joint Interpretive Guidance on Interrelated Drinking Water Systems.** This Guidance details the Joint Claims Form submission process available to entities that have an interest in the same Water Source. It also provides important guidance on Claims by wholesalers and retailers.

ii. **The Parties' Joint Interpretive Guidance on Entities That Own and/or Operate Multiple Public Water Systems.** This Guidance details the mechanism by which entities that own and/or operate multiple Public Water Systems should interpret the Settlement, and specifically, the opt-out provisions.

iii. **The Parties' Joint Interpretive Guidance on Federally Recognized Indian Tribes and Public Water Systems That They Own or Operate.** This Guidance confirms that Public Water Systems owned or operated by Indian tribes are not categorically excluded or otherwise afforded differential treatment, such that a PWS owned by a Tribe that otherwise meets the Settlement Class definition is an Eligible Claimant unless the System opts itself out.

iv. **The Parties' Joint Interpretive Guidance on Certain Release Issues.** This Guidance is a resource for interpreting the Release provisions.

THE PARAGRAPHS ABOVE PROVIDE ONLY A GENERAL SUMMARY OF THE TERMS OF THE PROPOSED SETTLEMENT. YOU SHOULD REVIEW THE SETTLEMENT AGREEMENT ITSELF FOR MORE INFORMATION ABOUT THE EXACT TERMS OF THE SETTLEMENT. THE SETTLEMENT AGREEMENT IS AVAILABLE AT WWW.PFASWATERSETTLEMENT.COM.

V. HOW WILL THE SETTLEMENT AMOUNT BE DIVIDED AMONG CLASS MEMBERS?

A. Baseline Testing.

1. Qualifying Class Members

Each Qualifying Class Member must perform Baseline Testing. Baseline Testing requires each Qualifying Class Member to test each of its Water Sources for PFAS; request from the laboratory that performs the analyses all analytical results, including the actual numeric values of all analytical results; and submit or cause the testing laboratory to submit detailed PFAS test results to the Claims Administrator on a Claims Form(s) by dates specified below.

Any Water Source tested on or before May 15, 2024, using a state- or federal-approved methodology and found to contain a Measurable Concentration of PFAS, does not need to be tested again for purposes of Baseline Testing.

Any Water Source tested prior to **January 1, 2019**, that did not result in a Measurable Concentration of PFAS, must retest to meet Baseline Testing requirements. If a Water Source was tested **January 1, 2019**, or later, and it did not result in a Measurable Concentration of PFAS, no further testing of that Water Source is required.

Baseline Testing requires the following:

- i. PFAS tests must be conducted at a minimum for PFAS analytes for which UCMR-5 requires testing, and
- ii. the PFAS test results must report any Measurable Concentration of PFAS, regardless of whether the level of PFAS detected in the water is above or below UCMR-5's relevant minimum reporting level.

Each Qualifying Class Member will verify in its Claims Form that it has tested all its Water Sources for PFAS. Failure to test and submit Qualifying Test Results for Water Sources will disqualify Water Sources from consideration for present and future payments.

Baseline Testing may be performed by any laboratory accredited or certified by a state government or federal regulatory agency for PFAS analysis that uses any state or federal agency approved or validated PFAS analytical method that is consistent with (or stricter) than the requirements of UCMR-5.

Class Counsel has arranged for discounted testing with the following laboratory to assist Class Members with Baseline Testing. The listed laboratory will forward the test results to the Claims Administrator. There is no requirement to use the listed laboratory.

2. **Base Scores for Water Sources.** The Allocation Procedures are designed to allocate money based on factors that dictate the costs of water treatment. It is well documented in the scientific literature and well known throughout the public water industry that the costs associated with water treatment consist of 1) capital costs and 2) operations and maintenance costs. Capital costs are mainly driven by the Impacted Water Source's flow rate. Operations and maintenance costs are mainly driven by flow rate and the levels of PFAS in the water. The Allocation Procedures utilize proxies for capital costs and operations and maintenance costs to generate a Base Score for each Impacted Water Source. The Claims Administrator will input the flow rates and PFAS concentrations from the Claims Forms into an EPA-derived formula that calculates a Base Score for each Impacted Water Source.

3. **Adjusted Base Scores.** Certain Class Members will be eligible for increases, or bumps, to their Base Scores. Based on the Claims Forms submitted, the Claims Administrator will determine if a Class Member is eligible for three available enhancements to the score: the Litigation Bump, the Public Water Provider Bellwether Bump (or Bellwether Bump), and the Regulatory Bump. A Class Member may qualify for none, one, or multiple bumps.

The Litigation Bump applies to all Qualifying Class Members that have a pending lawsuit filed in a state or federal court asserting Claims against Tyco related to alleged PFAS contamination of Drinking Water in Public Water Systems. The Bellwether Bump applies to the Impacted Water Sources that are owned or operated by Qualifying Class Members that served as one of the thirteen Public Water Provider Bellwether Plaintiffs. The Regulatory Bump will apply when an Impacted Water Source exceeds (i) an applicable state Maximum Contaminant Level (MCL) for a PFAS analyte or (ii) the proposed federal MCL for a PFAS analyte. The Claims Administrator will consider all Proposed Federal PFAS MCLs and existing state MCLs for PFAS chemicals existing on the date the Court issues a Final Approval to determine if an Impacted Water Source has ever exceeded any applicable standard during the Class Period.

After the Claims Administrator applies the appropriate bumps to each Impacted Water Source, the Claims Administrator will use the new Adjusted Base Scores to determine how much of the Settlement Amount each Impacted Water Source will receive.

4. **Settlement Awards.** The information required to calculate Settlement Awards is not publicly available and is only obtainable through the Claims Forms submitted by Class Members. Thus, the Settlement Awards that each Class Member will receive are not determinable until the Claims Administrator analyzes all the Claims Forms submitted by the Claims Form deadline. Notwithstanding, Estimated Allocation Range Tables are available for review on www.PFASWaterSettlement.com.

5. **Special Needs Funds.** Special Needs Funds will be established by the Claims Administrator for Qualifying Class Members that have expended monetary resources on extraordinary

efforts to address PFAS detections in their Impacted Water Sources. Class Members can file a Special Needs Fund Claims Form to be considered for reimbursement of these expenditures.

6. **Supplemental Funds.** The Claims Administrator will also establish Supplemental Funds so that a Qualifying Class Member that did not initially exceed a state or federal MCL when it submitted its Claims Form can request additional funds if it later exceeds a state or federal MCL, and so that a Qualifying Class Member with a Water Source that initially did not have a Qualifying Test Result showing a Measurable Concentration of PFAS and later had such a Qualifying Test Result can request additional funds.

VI. WHO REPRESENTS THE SETTLEMENT CLASS?

The Court has appointed the attorneys from the following law firms to act as counsel for the Class (referred to as “Class Counsel” or “Plaintiffs’ Counsel”) for purposes of the proposed Settlement:

<p>Scott Summy Baron & Budd, P.C. 3102 Oak Lawn Ave., Ste. 1100 Dallas, Texas 75219</p>	<p>Michael A. London Douglas & London 59 Maiden Lane, 6th Floor New York, NY 10038</p>
<p>Paul J. Napoli Napoli Shkolnik 1302 Av. Ponce de Leon San Juan, Puerto Rico 00907</p>	<p>Joseph F. Rice Motley Rice LLC 28 Bridgeside Boulevard Mt. Pleasant, South Carolina 29464</p>

VII. WHAT ARE THE REASONS FOR THE PROPOSED SETTLEMENT?

Class Counsel, Class Representatives, and Tyco have engaged in extensive, arm’s-length negotiations, including negotiations facilitated by a Court-appointed mediator, and have, subject to the Preliminary and Final Approval of the Court, reached an agreement to settle and release all Released Claims, on the terms and conditions set forth in the Settlement Agreement.

Class Representatives and Class Counsel have concluded, after a thorough investigation and after carefully considering the relevant circumstances, including the Claims asserted, the legal and factual defenses thereto, the applicable law, the burdens, risks, uncertainties, and expense of litigation, as well as the fair, cost-effective, and assured method of resolving the Claims, that it would be in the best interests of Class Members to participate in the Settlement in order to avoid the uncertainties of litigation and to ensure that the benefits reflected herein are obtained for Class Members. Further, Class Representatives and Class Counsel consider the Settlement set forth herein to be fair, reasonable, and adequate and in the best interests of Class Members.

Tyco, while continuing to deny any violation, wrongdoing, or liability with respect to any and all Claims asserted in the Litigation and all Released Claims, either on its part or on the part of any of

the Released Parties, entered into the Settlement Agreement to avoid the expense, inconvenience, and distraction of further litigation.

VIII. WHAT DO YOU NEED TO DO NOW?

YOU CAN PARTICIPATE IN THE SETTLEMENT. You must file a Claims Form to be eligible to receive a payment under the Settlement Agreement. You can submit your Claims Form online at www.PFASWaterSettlement.com, or you can download, complete, and mail your Claims Form to the Claims Administrator at AFFF Public Water System Claims, PO Box 4466, Baton Rouge, Louisiana 70821. The deadline to submit a Claims Form is **DEADLINE DATE**.

Regardless of whether you file a Claims Form or receive any distribution under the Settlement, unless you timely opt out as described below, you will be bound by the Settlement and any judgment or other final disposition related to the Settlement, including the Release set forth in the Settlement Agreement, and will be precluded from pursuing Claims against Tyco separately if those Claims are within the scope of the Release.

YOU CAN OPT OUT OF THE SETTLEMENT. If you do not wish to be a Class Member, and do not want to participate in the Settlement and receive funds from the Settlement, you may exclude yourself from the Settlement Class by completing and submitting the form of intention to opt-out (referred to as a “Request for Exclusion” or an “Opt-Out”), which will be available online for electronic submission and in paper copy. Anyone within the Settlement Class that wishes to opt out of the Settlement Class and Settlement must submit the “Request for Exclusion” form online, or, if submitting a paper copy, provide service on the Opt Out Administrator in accordance with Federal Rule of Civil Procedure 5, and comply with all Opt-Out provisions of the Settlement Agreement.

Any Class Member that submits a timely and valid Request for Exclusion shall not (i) be bound by any orders or judgments effecting the Settlement; (ii) be entitled to any of the relief or other benefits provided under the Settlement Agreement; (iii) gain any rights by virtue of the Settlement Agreement; or (iv) be entitled to submit an Objection.

As discussed in the Parties’ Joint Interpretive Guidance on Entities That Own and/or Operate Multiple Public Water Systems, if you own or operate more than one Active Public Water System and are authorized to determine whether to submit Requests for Exclusion on those Active Public Water Systems’ behalf, you may submit a Request for Exclusion on behalf of some of those Active Public Water Systems but not the other(s). You must submit a Request for an Exclusion on behalf of each such Active Public Water System that you wish to opt out of the Settlement Class. Any Active Public Water System that is not specifically identified in a Request for Exclusion will remain in the Settlement Class.

Any Class Member that does not submit a timely and valid Request for Exclusion submits to the jurisdiction of the Court and, unless the Class Member submits an Objection that complies with the provisions of the Settlement Agreement, shall waive and forfeit any and all objections the Class Member may have asserted. The submission of a Request for Exclusion shall have the effect of waiving and forfeiting any and all objections the Class Member did assert or may have asserted.

Requests for Exclusion may be withdrawn at any time prior to the Final Fairness Hearing. However, the withdrawal of a Request for Exclusion shall neither permit a Person to assert new Objections, nor to revive previously asserted ones.

YOU CAN OBJECT OR TAKE OTHER ACTIONS. Any Class Member who has not successfully excluded itself (“opted out”) may object to the Settlement. Any Class Member that wishes to object to the Settlement or to an award of fees or expenses to Class Counsel must file a written and signed statement designated “Objection” with the Clerk of the Court, provide service on Tyco’s Counsel and Class Counsel at the addresses below in accordance with Federal Rule of Civil Procedure 5, and comply with all Objections provisions of the Settlement Agreement. Objections submitted by any Class Member to incorrect locations shall not be valid. Objections submitted by any Class Member that later excludes itself shall be deemed withdrawn.

Before deciding whether to grant final approval to the Settlement, the Court will hold the Final Fairness Hearing in Courtroom **XX** of the U.S. Courthouse, 85 Broad Street, Charleston, South Carolina 29401, on **DATE**. At that time, the Court will determine, among other things, (i) whether the Settlement should be granted final approval as fair, reasonable, and adequate, (ii) whether the Action should be dismissed with prejudice pursuant to the terms of the Settlement Agreement, (iii) whether the Settlement Class should be conclusively certified for settlement purposes only, (iv) whether Class Members should be bound by the Release set forth in the Settlement Agreement, (v) the amount of attorneys' fees and costs to be awarded to Class Counsel, if any, and (vi) the amount of the award to be made to the Class Representatives for their services, if any. The Final Fairness Hearing may be postponed, adjourned, or continued by Order of the Court without further notice to the Class.

Notice Plan

As detailed below, the Notice Plan provides for individual direct notice via USPS mail to all reasonably identifiable Eligible Claimants, outreach to national and local water organizations, a comprehensive media plan, and the implementation of a dedicated Settlement website and toll- free telephone line where Eligible Claimants can learn more about their rights and options pursuant to the terms of the Settlement. Additional details are provided in the accompanying Declaration of the Notice Administrator, Steven Weisbrot of Angeion Group, who will implement the Notice Plan. All capitalized terms not otherwise defined herein shall have the meaning set forth in the Settlement Agreement, available for review at www.PFASWaterSettlement.com.

MAILED NOTICE

- Class Counsel will provide Angeion with a list of Public Water Systems that Class Counsel believes may be Eligible Claimants, based on information available to Class Counsel as of the Settlement Date (the “Class List”). The Class List will include, at a minimum, (1) all Active Public Water Systems that, according to Class Counsel’s information as of the Settlement Date, draw or otherwise collect water from any Water Source that has a Qualifying Test Result showing a Measurable Concentration (*i.e.*, any detection at any level) of PFAS. The Class List will be updated if Class Counsel becomes aware of additional Public Water Systems that may be Eligible Claimants.
- The Class List will also include mailing addresses and email addresses for each Eligible Claimant on the Class List, based on address information maintained in the U.S. EPA’s Safe Drinking Water Information System (“SDWIS”) or relevant state data sources. Where SDWIS, relevant state data sources, or information available to Class Counsel specifies an owner or operator of a Public Water System on the Class List whose mailing or email address is different from that of the Public Water System itself, the Class List will include the additional mailing and/or email address(es) as well.
- Notice will be sent via USPS certified mail with tracking and signature required to all Eligible Claimants for whom mailing addresses are included on the Class List. Notice will be mailed via USPS first-class mail, postage prepaid, to any P.O. Box addresses.

- Angeion will employ the following best practices to increase the deliverability rate of the mailed Notices:
 - Angeion will cause the mailing address information for Eligible Claimants to be updated utilizing the USPS National Change of Address database, which provides updated address information for individuals or entities that have moved during the previous four (4) years and filed a change of address with the USPS;
 - Angeion will also identify the address information included in SDWIS specified above, as well as relevant state data sources, and will monitor SDWIS and such sources for any updates;
 - Notices returned to Angeion by the USPS with a forwarding address will be re-mailed to the new address provided by the USPS, and the Class List will be updated accordingly;
 - Notices returned to Angeion by the USPS without forwarding addresses will be subjected to an address verification search (commonly referred to as “skip tracing”) utilizing a wide variety of data sources, including public records, real estate records, electronic directory assistance listings, etc., to locate updated addresses; and
 - Notices will be re-mailed to Eligible Claimants for whom updated addresses were identified via the skip tracing process.
- Any mailed Notices that remain undeliverable after the above-described efforts will be subjected to manual internet searches, phone calls to obtain updated addresses, and/or the identification of email addresses for providing backup notice if efforts to obtain a mailing address are not successful or where the Eligible Claimant requests notice be sent via email.
- A reminder postcard will be sent prior to certain applicable deadlines.

EMAIL NOTICE

- The Summary Notice will be sent via email to all Eligible Claimants for whom email addresses are available.
- The email sending the Summary Notice will be designed to avoid many common “red flags” that might otherwise cause a spam filter to block or identify the email notice as spam. For example, the email will not include attachments like the long-form Notice, because

attachments are often interpreted by various Internet Service Providers (“ISP”) as spam.

- Additional methods will be employed to help ensure that as many recipients as possible receive the Summary Notice via email. Specifically, prior to distributing the Summary Notice by email, an email updating process will be undertaken to help ensure the accuracy of recipient email addresses. Angeion will review email addresses for mis-transcribed characters and perform other data hygiene as appropriate. This process will include review of email address information available in SDWIS or relevant state data sources.
- The email notice process will also account for the reality that some emails will inevitably fail to be delivered during the initial delivery attempt. Therefore, after the initial noticing campaign is complete and after an approximate 24- to 72-hour rest period (which allows any temporary block at the ISP level to expire) a second round of email noticing will continue to any email addresses that were previously identified as soft bounces and not delivered.
- Angeion will also send a reminder email prior to certain applicable deadlines.

OUTREACH EFFORTS

- Angeion will perform personalized outreach to national and local water organizations, including to entities such as the Association of Metropolitan Water Agencies (“AMWA”) and the American Water Works Association (“AWWA”) and similar third-party organizations that have a connection to the case, along with a request that they assist in providing notice, where appropriate.

MEDIA CAMPAIGN

Publication Notice

- The Summary Notice of the Settlement will be published one (1) time in key industry- specific titles, such as *Journal AWWA*, *Rural Water*, *The Municipal*, and *Water Environment & Technology*.
- The Summary Notice of the Settlement will also be published one (1) time each in national publications such as the *Wall Street Journal*, *USA Today*, and the *New York Times*.
- To satisfy the requirements of California’s Consumer Legal Remedies Act, Angeion will cause the Summary Notice to be printed in the California regional edition of *USA Today* for

four (4) consecutive weeks.

Digital Notice

- Angeion will undertake a digital publication campaign utilizing key industry-specific titles, such as *American Water Works Association*, *National Rural Water Association*, *The Municipal*, *Water Environment & Technology*, *Water Quality Association*, *AWWA Opflow*, and/or *AWWA Source Book*.

Paid Search Campaign

- Angeion will implement a paid search campaign on Google to help drive Eligible Claimants that are actively searching for information about the Settlement to the dedicated Settlement website.

Press Release

- Angeion will distribute a press release over PR Newswire’s national and public interest circuits to further disseminate news of the Settlement. A second press release will also be issued before the Objection and Opt Out deadlines.

SETTLEMENT WEBSITE AND TOLL-FREE TELEPHONE SUPPORT

- The Notice Plan will also involve a Settlement website, www.PFASWaterSettlement.com, where Eligible Claimants can easily view general information about this Settlement, review relevant Court documents, and view important dates and deadlines pertinent to the Settlement. The website is designed to be user-friendly and make it easy for Eligible Claimants to find information about the case. The website also has a “Contact Us” page whereby Eligible Claimants can send an email with any additional questions to a dedicated email address.
- A toll-free hotline devoted to this case will be established to further apprise Eligible Claimants of their rights and options under the Settlement Agreement. The toll-free hotline will utilize an interactive voice response (“IVR”) system to provide Eligible Claimants with responses to frequently asked questions and will also provide other essential information regarding the Settlement. This hotline will be accessible 24 hours a day, 7 days a week, with live operator support during normal business hours.

EXHIBIT F

**SUMMARY NOTICE OF PROPOSED CLASS ACTION SETTLEMENT
AND COURT-APPROVAL HEARING**

In re: Aqueous Film-Forming Foams Products Liability Litigation, MDL No. 2:18-mn-02873 This Document relates to: *City of Camden, et al., v. Tyco Fire Products LP*, No. 2:24-cv-02321-RMG

UNITED STATES DISTRICT COURT, DISTRICT OF SOUTH CAROLINA,
CHARLESTON DIVISION

TO THE SETTLEMENT CLASS: All Active Public Water Systems in the United States of America that have one or more Impacted Water Sources as of May 15, 2024.

All capitalized terms not otherwise defined herein shall have the meanings set forth in the Settlement Agreement, available for review at www.PFASWaterSettlement.com.

Active Public Water System means a Public Water System whose activity-status field in SDWIS states that the system is “Active.”

Impacted Water Source means a Water Source that has a Qualifying Test Result showing a Measurable Concentration of PFAS.

Public Water System means a system for the provision to the public of water for human consumption through pipes or other constructed conveyances, if such system has at least fifteen (15) service connections or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days out of the year, consistent with the use of that term in the Safe Drinking Water Act, 42 U.S.C § 300f(4)(A) and 40 C.F.R. Part 141. The term “Public Water System” includes (i) any collection, treatment, storage, and distribution facilities under control of the operator of such system and used primarily in connection with such system, and (ii) any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system. Solely for purposes of this Settlement Agreement, the term “Public Water System” refers to a Community Water System of any size or a Non-Transient Non-Community Water System that serves more than 3,300 people, according to SDWIS, the owner and/or operator of such Public Water Systems, or any Person (but not any financing or lending institution) that has legal authority or responsibility (by statute, regulation, other law, or contract) to fund or incur financial obligations for the design, engineering, installation, operation, or maintenance of any facility or equipment that treats, filters, remediates, or manages water that has entered or may enter Drinking Water or any Public Water System. It is the intention of this Agreement that the definition of “Public Water System” be as broad, expansive, and inclusive as possible.

What Is the Purpose of this Notice? The purpose of this Notice is (i) to advise you of a proposed settlement of certain Claims against Tyco Fire Products LP (“Tyco” or “Defendant”) in the United

States District Court for the District of South Carolina (the “Court”); (ii) to summarize your rights in connection with the Settlement; and (iii) to inform you of a Court hearing to consider whether to grant final approval of the Settlement (the “Final Fairness Hearing”), to be held on **DATE** at **TIME**, before the Honorable Richard M. Gergel, United States District Judge of the United States District Court for the District of South Carolina, located at 85 Broad Street, Charleston, South Carolina 29401.

What Are the Key Terms of the Proposed Settlement? Tyco has agreed to pay \$750,000,000.00 (the “Settlement Amount”), subject to final approval of the Settlement by the Court and certain other conditions specified in the Settlement Agreement. In no event shall Tyco be required under the Settlement Agreement to pay any amounts above the Settlement Amount. Any fees, costs, or expenses payable under the Settlement Agreement shall be paid out of, and shall not be in addition to, the Settlement Amount. Each Class Member that has not excluded itself from the Class will be eligible to receive a settlement check(s) from the Claims Administrator based on the Allocation Procedures developed by Class Counsel, which are subject to final approval by the Court as fair and reasonable and whose administration is under the oversight of the Special Master.

What Are My Options?

YOU CAN PARTICIPATE IN THE SETTLEMENT. You must file a Claims Form to be eligible to receive a payment under the Settlement. You can submit your Claims Form online at www.PFASWaterSettlement.com, or you can download, complete, and mail your Claims Form to the Claims Administrator at AFFF Public Water System Claims, P.O. Box 4466, Baton Rouge, Louisiana 70821. The deadline to submit a Claims Form is **DEADLINE DATE**.

Regardless of whether you file a Claims Form or receive any distribution under the Settlement, unless you timely opt out as described below, you will be bound by the Settlement and any judgment or other final disposition related to the Settlement, including the Release set forth in the Settlement Agreement, and will be precluded from pursuing claims against Tyco separately if those Claims are within the scope of the Release.

YOU CAN OPT OUT OF THE SETTLEMENT. If you do not wish to be a Class Member and do not want to participate in the Settlement and receive a settlement check, you may exclude yourself, or “opt out” from the Class by completing and submitting a Request for Exclusion. The Request for Exclusion form will be available online and may be submitted electronically; if it is submitted via paper copy it must be served on the Opt Out Administrator no later than **DEADLINE DATE**. Requests for Exclusion may be withdrawn at any time before the Final Fairness Hearing.

YOU CAN OBJECT TO THE SETTLEMENT. Any Class Member that has not successfully excluded itself (“opted out”) may object to the Settlement. Any Class Member that wishes to object to the Settlement or to an award of fees or expenses to Class Counsel must file a written and signed statement designated “Objection” with the Clerk of the Court and provide service on Tyco’s Counsel and Class Counsel no later than

DEADLINE DATE. No Class Member who has submitted a Request for Exclusion may object, and any Objections submitted by any Class Member that later excludes itself shall be deemed withdrawn.

Before the Court is the Motion of proposed Class Counsel for Preliminary Approval of Settlement Agreement (the “Preliminary Approval Motion”), pursuant to Rules 23(a), 23(b), and 23(e) of the Federal Rules of Civil Procedure, which seeks: (1) Preliminary Approval of the Settlement Agreement; (2) preliminary certification, for settlement purposes only, of the Settlement Class; (3) approval of the form of Notice to the Settlement Class; (4) approval of the Notice Plan; (5) appointment of Class Counsel; (6) appointment of Class Representatives; (7) appointment of the Notice Administrator; (8) appointment of the Opt Out Administrator; (9) appoint of the Claims Administrator; (10) appointment of the Special Master; (11) appointment of the Escrow Agent; (12) approval of the Escrow Agreement; (13) establishment of the Qualified Settlement Fund; (14) scheduling of a Final Fairness Hearing; and (15) a stay of all proceedings brought by Releasing Persons in the MDL and in other Litigation in any forum as to Tyco, and an injunction against the filing of any new such proceedings. (Dkt. No. XXX).

WHEREAS, a proposed Settlement Agreement has been reached by and among (i) Class

Representatives, individually and on behalf of the Eligible Claimants, by and through Class Counsel, and (ii) defendant Tyco Fire Products LP (“Tyco”);

WHEREAS, the Court, for the purposes of this Order Granting Preliminary Approval, adopts all defined terms as set forth in the Settlement Agreement;

WHEREAS, this matter has come before the Court pursuant to the Preliminary Approval Motion;

WHEREAS, Tyco does not oppose the Court’s entry of this Order Granting Preliminary Approval;

WHEREAS, the Court finds that it has jurisdiction over the action and each of the Parties for purposes of settlement and asserts jurisdiction over the Class Representatives for purposes of considering and effectuating the Settlement Agreement;

WHEREAS, the Court has considered all of the presentations and submissions related to the Preliminary Approval Motion and, having presided over and managed the proceedings in the MDL as Transferee Judge since December 7, 2018, pursuant to the Transfer Order of the same date, is familiar with the facts, contentions, claims, and defenses as they have developed in these proceedings, and is otherwise fully advised of all relevant facts in connection therewith.

IT IS HEREBY ORDERED AS FOLLOWS:

I. PRELIMINARY APPROVAL OF SETTLEMENT AGREEMENT

1. The Court finds that the requirements of Rules 23(a)(1)-(4), 23(b), and 23(e) of the Federal Rules of Civil Procedure have been satisfied for purposes of preliminary approval of the Settlement Agreement such that notice of the Settlement Agreement should be directed to Eligible Claimants and a Final Fairness Hearing should be set.

2. The Settlement Agreement, including all Exhibits and Parties’ Joint Interpretive Guidance documents attached thereto, is preliminarily approved by the Court.

II. FINDINGS REGARDING THE SETTLEMENT CLASS

3. The Settlement Class consists of, only for purposes of the Settlement Agreement:

- (a) Every Active Public Water System in the United States of America that has one or more Impacted Water Sources as of May 15, 2024.

An “Impacted Water Source” means a Water Source that has a Qualifying Test Result showing a Measurable Concentration of PFAS.

4. The following are excluded from the Settlement Class:

- (a) The City of Marinette Waterworks, denoted as Water System ID “WI4380395” in the SDWIS; provided, however, that the City of Marinette Waterworks will be included within the Settlement Class if it so requests.
- (b) Any Public Water System that is owned and operated by a State government and cannot sue or be sued in its own name.
- (c) Any Public Water System that is owned and operated by the federal government and cannot sue or be sued in its own name.
- (d) Any privately owned well that provides water only to its owner’s (or its owner’s tenant’s) individual household and any other system for the provision of water for human consumption that is not a Public Water System.

5. The Court finds that it will likely be able to certify the Settlement Class for purposes of judgment on the proposed Settlement Agreement. The Settlement Class is likely to meet the numerosity, commonality, typicality, and adequacy requirements of Rule 23(a)(1)-(4) of the Federal Rules of Civil Procedure and the predominance and superiority requirements of Rule 23(b)(3) of the Federal Rules of Civil Procedure.

6. The following Class Representatives are preliminarily appointed for purposes of the Settlement: City of Camden; California Water Service Company; City of Benwood; City of Brockton; City of Delray Beach; City of Freeport; City of Sioux Falls; City of South Shore; Coraopolis Water & Sewer Authority; Dalton Farms Water System; Martinsburg Municipal Authority; Township of Verona; and Village of Bridgeport.

7. Subject to final approval by the Court of class certification, the Court provisionally appoints: Michael A. London and the law firm of Douglas & London; Scott Summy and the law firm of Baron & Budd; Paul J. Napoli and the law firm of Napoli Shkolnik; and Joe Rice and the law firm of Motley Rice, LLC as Class Counsel under Rule 23(g)(3) of the Federal Rules of Civil Procedure.

III. FINDINGS REGARDING THE SETTLEMENT AGREEMENT

8. Under Rule 23(e)(2) of the Federal Rules of Civil Procedure, in order to approve the proposed Settlement Agreement, the Court must determine whether it is fair, reasonable, and adequate. Rule 23(e)(2) sets forth factors that the Court must consider in reaching that determination.

9. The Parties have provided the Court sufficient information, including in the Preliminary Approval Motion and related submissions and presentations, to enable the Court to determine whether to give notice of the proposed Settlement Agreement to the Settlement Class. The proposed Settlement Agreement is the product of intensive, arm's-length, non-collusive negotiations overseen by the Court-appointed mediator, Honorable Layn Phillips; has no obvious deficiencies; does not improperly grant preferential treatment to the Class Representatives; and is fair, reasonable, and adequate. Accordingly, the Court has taken the Rule 23(e)(2) factors and applicable precedent into account in finding that it will likely be able to approve the proposed Settlement Agreement as fair, reasonable, and adequate.

10. [Analysis and ruling on Objections, if any]

11. The Court finds that it will likely be able to approve, under Rule 23(e)(2) of the Federal Rules of Civil Procedure, the proposed Settlement Agreement.

IV. NOTICE TO ELIGIBLE CLAIMANTS

12. Under Rule 23(c)(2) of the Federal Rules of Civil Procedure, the Court finds that the Notice set forth in Exhibit D to the Settlement Agreement, the Notice Plan set forth in Exhibit E to the Settlement Agreement, and the Summary Notice set forth in Exhibit F to the Settlement Agreement (a) is the best practicable notice; (b) is reasonably calculated under the circumstances to apprise Eligible Claimants of the pendency of this action and the Settlement Agreement and of their right to object to or exclude themselves from the proposed Settlement Class; (c) is reasonable and constitutes due, adequate, and sufficient notice to all Persons entitled to receive notice; and (d) meets all applicable requirements of Rule 23 of the Federal Rules of Civil Procedure, the United States Constitution (including the Due Process Clause), and other applicable laws and rules.

13. The Court approves the Notice, the Summary Notice, and the Notice Plan, and hereby directs that the Notice and the Summary Notice be disseminated pursuant to the Notice Plan to Eligible Claimants under Rule 23(e)(1) of the Federal Rules of Civil Procedure.

14. The Notice Plan shall commence no later than fourteen (14) calendar days after entry of this Order Granting Preliminary Approval—namely, no later than **X, 2024** so as to commence the period during which Eligible Claimants may opt out from the Settlement Class and Settlement or object to the Settlement.

V. PROCEDURE FOR REQUESTS FOR EXCLUSION AND OBJECTIONS

15. The procedure for Requests for Exclusion set forth in Paragraph 9.7 of the Settlement Agreement and the instructions in the Notice regarding the procedures that must be followed to opt out of the Settlement Class and Settlement are approved.

16. Any Eligible Claimant wishing to opt out of the Settlement Class and Settlement must complete a Request for Exclusion, in a form substantially similar to the one attached as Exhibit I to the Settlement Agreement. The Request for Exclusion will be available online and allow for electronic submission to the designated recipient list. Eligible Claimants may also submit the Request for Exclusion form via paper copy and serve it on the Opt Out Administrator at the address set forth in the Notice. Such written request must be received no later than the date ninety (90) calendar days following the commencement of the Notice Plan (as described in Paragraph 13 of this Order), which is the last day of the opt out period. The last day of the opt out period is **X**, **2024**.

17. Any Class Member that does not submit a timely and valid Request for Exclusion submits to the jurisdiction of the Court and, unless the Class Member submits an Objection that complies with the provisions of Paragraphs 20 through 22 of this Order, shall waive and forfeit any and all objections the Class Member may have asserted. The submission of a Request for Exclusion shall have the effect of waiving and forfeiting any and all objections the Class Member did assert or may have asserted. Requests for Exclusion may be withdrawn at any time prior to the Final Fairness Hearing. However, the withdrawal of a Request for Exclusion shall neither permit a Person to assert new Objections, nor to revive previously asserted ones.

18. Pursuant to Section 10 of the Settlement Agreement, Tyco shall have the option, in its sole discretion, to terminate the Settlement Agreement following notice of Requests for Exclusion if any of the conditions set forth in Paragraph 10.1 of the Settlement Agreement are satisfied. The Special Master shall determine whether all parts of the Required Participation Threshold have been satisfied and shall inform the parties of such determination within fourteen (14) calendar days after the deadline for submitting Requests for Exclusion set forth in Paragraph 16 of this Order. Tyco shall then have until fourteen (14) calendar days after the Special Master's

determination to provide Class Counsel notice of its exercise of the Walk-Away Right.

19. The procedure for objecting to the Settlement or to an award of fees or expenses to Class Counsel, as set forth in Paragraph 9.5 of the Settlement Agreement, is approved.

20. A Class Member who wishes to object to the Settlement or to an award of fees or expenses to Class Counsel must file a written and signed statement designated “Objection” with the Clerk of the Court and serve a copy of such Objection on Class Counsel and Tyco’s Counsel at the addresses set forth in the Notice. All Objections must certify, under penalty of perjury in accordance with 28 U.S.C. § 1746, that the filer has been legally authorized to object on behalf of the Class Member and must provide (a) the Class Member’s SDWIS ID; (b) an affidavit or other proof of the Class Member’s standing; (c) the name, address, telephone and facsimile number and email address (if available) of the filer and the Class Member; (d) the name, address, telephone, and facsimile number and email address (if available) of any counsel representing the Class Member; (e) all objections asserted by the Class Member and the specific reason(s) for each objection, including all legal support and evidence the Class Member wishes to bring to the Court’s attention; (f) an indication as to whether the Class Member wishes to appear at the Final Fairness Hearing; and (g) the identity of all witnesses the Class Member may call to testify.

21. All Objections shall be filed and served no later than the date sixty (60) calendar days following the commencement of the Notice Plan (as described in Paragraph 14 of this Order), which is the last day of the objection period. The last day of the objection period is **X**, **2024**. Any Objection not filed and served by such date shall be deemed waived.

22. A Class Member may object either on its own or through an attorney hired at that Class Member’s own expense, provided the Class Member has not submitted a written Request for Exclusion. An attorney asserting objections on behalf of a Class Member must, no later than the deadline for filing Objections specified in Paragraph 21 of this Order, file a notice of appearance

with the Clerk of Court and serve a copy of such notice on Class Counsel and Tyco's Counsel at the addresses set forth in the Notice.

23. Any Class Member who fully complies with the provisions of Paragraph 9.5 of the Settlement Agreement and Paragraphs 20 through 22 of this Order may, in the Court's discretion, appear at the Final Fairness Hearing to object to the Settlement or to the award of fees and costs to Class Counsel. Any Class Member who fails to comply with the provisions of Paragraph 9.5 of the Settlement Agreement and Paragraphs 20 through 22 of this Order shall waive and forfeit any and all objections the Class Member may have asserted.

24. The assertion of an Objection does not operate to opt the Person asserting it out of, or otherwise exclude that Person from, the Settlement Class. A Person within the Settlement Class can opt out of the Settlement Class and Settlement only by submitting a valid and timely Request for Exclusion in accordance with the provisions of Paragraph 9.7 of the Settlement Agreement and Paragraphs 15 to 16 this Order. Requests for Exclusion may be withdrawn at any time prior to the Final Fairness Hearing. However, the withdrawal of a Request for Exclusion does not permit a Person to assert new Objections nor revive previously asserted Objections.

25. No later than **X**, **2024**, the Special Master shall prepare and file with the Court, and serve on Class Counsel and Tyco's Counsel, a list of all Persons who have timely filed and served Requests for Exclusion or Objections.

VI. FINAL FAIRNESS HEARING

26. A Final Fairness Hearing shall take place on the **Xth** day of **X**, **2024** at **10** o'clock **in the a.m.**, U.S. Court House, 85 Broad St., Charleston, South Carolina, at which the Court will consider submissions regarding the proposed Settlement Agreement, including any Objections, and whether: (a) to approve thereafter the Settlement Agreement as fair, reasonable, and adequate,

pursuant to Rule 23 of the Federal Rules of Civil Procedure, (b) to certify the Settlement Class, and (c) to enter the Order Granting Final Approval; (d) enter judgment dismissing the Released Claims as set forth in the Settlement Agreement; and (e) permanently enjoin any Class Member from asserting or pursuing any Released Claim against any Released Person in any forum as provided in Paragraph 9.9 of the Settlement Agreement. The Final Fairness Hearing shall be subject to adjournment by the Court without further notice, other than that which may be posted by the Court on the Court's website.

27. Class Counsel shall file a motion for attorneys' fees, costs, and Class Representative service awards no later than **X**, 2024.

28. Class Counsel and Tyco's Counsel shall file any papers in support of Final Approval of the Settlement Agreement, and any responses to any Objections, no later than **X**, 2024.

VII. STAY ORDER AND INJUNCTION

29. All litigation in any forum brought by or on behalf of a Releasing Person and that asserts a Released Claim, and all Claims and proceedings therein, are hereby stayed as to the Released Persons, except as to proceedings that may be necessary to implement the Settlement. All Releasing Persons are enjoined from filing or prosecuting any Claim in any forum or jurisdiction (whether federal, state, or otherwise) against any of the Released Persons, and any such filings are stayed; provided, however, that after the Final Fairness Hearing, the stay and injunction shall not apply to any Person who has filed (and not withdrawn) a timely and valid Request for Exclusion. This Paragraph also shall not apply to any lawsuits brought by a State or the federal government in any forum or jurisdiction. The stay and injunction provisions of this Paragraph will remain in effect until the earlier of (i) the Effective Date, in which case such provisions shall be superseded by the provisions of the Order Granting Final Approval, and (ii) the termination of the Settlement Agreement in accordance with its terms. This Order is entered pursuant to the Court's Rule 23(e)

findings set forth above, in aid of its jurisdiction over the members of the proposed Settlement Class and the settlement approval process under Rule 23(e). All statutes of limitations, statutes of repose, or other limitations period imposed by any jurisdiction in the United States are tolled to the extent permitted by law with respect to each Released Party for any Claim of a Releasing Party that is subject to the stay and injunction provisions of this Paragraph from (i) Settlement/Execution Date until (ii) thirty (30) calendar days after the stay and injunction provisions cease to apply to such Claim under the terms of this Paragraph, after which the running of all applicable statutes of limitations, statutes of repose, or other limitations periods shall recommence. Nothing in the foregoing sentence shall affect any arguments or defenses existing as of the entry of this Order, including but not limited to any prior defenses based on the timeliness of the Claims such as defenses based on statutes of limitation and statutes of repose.

VIII. OTHER PROVISIONS

30. Matthew Garretson of Wolf/Garretson LLC, P.O. Box 2806, Park City, UT 8406 is appointed to serve as the Special Master and is appointed as the “administrator” of the Qualified Settlement Fund escrow account within the meaning of Treasury Regulations § 1.468B-2(k)(3).

31. Dustin Mire of Eisner Advisory Group, 8550 United Plaza Boulevard, Suite #1001, Baton Rouge, LA is appointed to serve as the Claims Administrator.

32. Robyn Griffin, The Huntington National Bank, One Rockefeller Center, 10th Floor, New York, NY 10020 is appointed to serve as the Escrow Agent.

33. Steven Weisbrot, Angeion Group, is appointed to serve as the Notice Administrator.

34. Edward J. Bell, Rubris Inc., is appointed to serve as the Opt Out Administrator.

36. If the Settlement Agreement is terminated or is not consummated for any reason, the Court’s findings with respect to certification of the Settlement Class shall be void, the Litigation against the Released Persons for all purposes will revert to its status as of the Settlement Date, and any unexpended Settlement Funds shall be returned to Tyco as provided for in Paragraphs 9.11, 9.12, 9.13 or 10.4 of the Settlement Agreement, as applicable. In such event, Tyco will not be deemed to have consented to certification of any class, and will retain all rights to oppose, appeal, or otherwise challenge, legally or procedurally, class certification or any other issue in the Litigation. Likewise, if the Settlement does not reach Final Judgment, then the participation in the Settlement by any Class Representative or Class Member cannot be raised as a defense to their claims.

The deadlines set forth in Paragraphs 14, 16, 21, and 25 of this Order may be extended, and the Final Fairness Hearing may be adjourned, by Order of the Court, for good cause shown, without further notice to the Class Members, except that notice of any such extensions or adjournments shall be posted on a website maintained by the Claims Administrator, as set forth in the Notice.

40. The Court shall maintain continuing jurisdiction over these proceedings (including over the administration of the Qualified Settlement Fund) for the benefit of the Settlement Class.

SO ORDERED this ____ day of _____, 2024.

s/ Richard Mark Gergel
The Honorable Richard M. Gergel
United States District Judge

EXHIBIT H

Payment Schedule

Tyco’s payment of the Settlement Amount totaling \$750,000,000 shall be made in accordance with the Settlement Agreement and with the schedule laid out herein. All capitalized terms not otherwise defined herein shall have the meanings set forth in the Settlement Agreement.

Payment Designation	Earliest Possible Payment Date	Amount
First Payment	May 28, 2024	\$250,000,000 (plus, if applicable, Insurance Payment(s) as described below)
Interim Payment(s), if any, as described below		
Last Payment	October 15, 2024	\$500,000,000 (with adjustments as described below based on Interim Payment(s) (if any))

Definitions

“TFP QSF” means the qualified settlement fund authorized pursuant to Section 468B of the United States Internal Revenue Code under the name TFP QSF, LLC that Tyco has established and intends to use for the purposes described herein.

“Insurance Payment” means cash recovery of greater than or equal to \$10,000,000 received by Tyco or the TFP QSF after the Settlement Date from any Tyco insurance carrier—whether by settlement or judgment—to pay claims for coverage of Released Claims. Tyco shall be obligated to remit such Insurance Payment(s) in accordance with the terms described below under “Effect of Insurance Payment(s).”

“Interim Payment” means the payment, if any, of between the First Payment and the Last Payment as described below.

“Maximum Total Payment” means Tyco’s total payment of the Settlement Amount of \$750,000,000 in accordance with Sections 3.1 and 6 of the Settlement Agreement, including without limitation all attorneys’ fees, costs, and expenses. For the avoidance of doubt, under no circumstances shall Tyco or the TFP QSF be liable for any amount more than the Maximum Total Payment of \$750,000,000.

Payment Dates

Each date in the Table reflects the earliest possible payment date for each payment from Tyco, subject to the following constraints.

The First Payment shall be due and payable on the later of: May 28, 2024 ***or*** ten days after Preliminary Approval.

The Last Payment shall be due and payable on the later of: October 15 ***or*** six months after the Court grants Preliminary Approval, provided, however, Tyco has not already paid the Maximum Total Payment by that date by way of Insurance Payment(s).

Transfers to Supplemental Fund and Special Needs Fund

Within five (5) Business Days after each payment described in the Settlement Agreement and this Payment Schedule, the Escrow Agent shall transfer seven percent (7%) of the payment amount into the Supplemental Fund, and five percent (5%) of the payment amount into the Special Needs Fund.

Effect of Insurance Payment(s)

Within seven (7) days of any deposit of an Insurance Payment greater than or equal to \$10,000,000 to the TFP QSF after the Settlement Date, Tyco shall notify Class Counsel of the date and amount of the Insurance Payment.

Within 21 days of any deposit of an Insurance Payment to Tyco or the TFP QSF after the First Payment date, Tyco shall wire transfer to the Qualified Settlement Fund specified in Section 6 of the Settlement Agreement an amount equal to: (1) the Insurance Payment, (2) less the total of all prior payments made by Tyco to the Qualified Settlement Fund, and (3) not to exceed the Maximum Total Payment when aggregated with all Tyco payments.

These obligations will end once Tyco has paid the Maximum Total Payment, or Settlement Amount, of \$750,000,000.

By way of illustration only:

- If Tyco deposits an Insurance Payment of \$200,000,000 to the TFP QSF (and that is the first such Insurance Payment) on May 1, 2024, the First Payment shall be \$250,000,000. Assuming no further Insurance Payment(s) in this illustration, the Last Payment would total \$500,000,000.
- If Tyco deposits an Insurance Payment of \$300,000,000 to the TFP QSF (and that is the first such Insurance Payment) on May 1, 2024, the First Payment shall be \$300,000,000. Assuming no further Insurance Payment(s) in this illustration, the Last Payment would total \$450,000,000.
- If Tyco makes the First Payment of \$250,000,000, and then subsequently deposits an Insurance Payment of \$300,000,000 to the TFP QSF (and that is the first such Insurance Payment) on July 1, 2024, by no later than July 22, 2024, Tyco shall make a supplemental wire transfer to the Qualified Settlement Fund of \$50,000,000. Assuming no further Insurance Payment(s) in this illustration, the Last Payment would total \$450,000,000.

Letter from Releasing Party

Dear [*Person or Entity*]:

This letter regards [*name and SDWIS ID of Releasing Party/Water System*] (“[*System*]”), Tyco Fire Products LP (“Tyco”) and entities affiliated with Tyco, and certain provisions in the Settlement Agreement Between Public Water Systems and Tyco approved by a federal judge on [*date of Final Approval*] (“the Settlement” or the “Settlement Agreement”). The Settlement involves Drinking Water and the group of chemicals commonly known as “PFAS.” All capitalized terms not otherwise defined herein shall have the meaning set forth in the Settlement Agreement.

The purpose of this letter is to provide information about the broad, inclusive, and expansive release that [*System*] has provided to Tyco and certain entities affiliated with Tyco as part of a Settlement between Public Water Systems across the country and Tyco.

This letter does not provide or purport to provide you with legal advice. Nothing in this letter modifies or purports to modify any part of the Settlement. Rather, this letter explains certain rights and responsibilities of [*System*] and Tyco in light of the Settlement. If you would like to review the terms of the Settlement itself, it is available at www.PFASWaterSettlement.com.

Claims Released by [*System*] Under the Settlement

Under the Settlement, [*System*] has released certain Claims against Tyco and entities affiliated with Tyco (collectively, the “Released Parties”) such that those Claims are fully, finally, and forever resolved. Subject to certain exceptions, under the Settlement, [*System*] has released as broadly, expansively, and inclusively as possible **any** Claim:

1. That may have arisen or may arise at any time in the future out of, relates to, or involves PFAS that has entered or may reasonably be expected to enter Drinking Water or any Releasing Party’s Public Water System; including any Claim that:
 - a) was or could have been asserted in the Litigation and that arises or may arise at any time in the future out of, relates to, or involves Drinking Water or [*System*]’s Public Water System;
 - b) is for any type of relief with respect to the design, engineering, installation, maintenance, or operation of, or cost associated with, any kind of treatment, filtration, remediation, management, investigation, testing, or monitoring of PFAS in Drinking Water or in [*System*]’s Public Water System; or
 - c) has arisen or may arise at any time in the future out of, relates to, or involves any increase in the rates for Drinking Water that [*System*] charges its customers;
2. Arising out of, relating to, or involving the development, manufacture, formulation, distribution, sale, transportation, storage, loading, mixing, application, or use of PFAS or any product (including aqueous film-forming foam (“AFFF”)) manufactured with or

containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS);

3. That has arisen or may arise at any time in the future out of, relates to, or involves the development, manufacture, formulation, distribution, sale, transportation, storage, loading, mixing, application, or use of PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS);
4. That has arisen or may arise at any time in the future out of, relates to, or involves [System]'s transport, disposal, or arrangement for disposal of PFAS-containing waste or PFAS-containing wastewater, or [System]'s use of PFAS-containing water for irrigation or manufacturing;
5. That has arisen or may arise at any time in the future out of, relates to, or involves representations about PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS); and
6. For punitive or exemplary damages that has arisen or may arise at any time in the future out of, relates to, or involves PFAS or any product (including AFFF) manufactured with or containing PFAS (to the extent such Claim relates to, arises out of, or involves PFAS).

Tyco and the Other Released Parties Have No Further Obligation to Pay

Through its payments under the Settlement, Tyco has fully resolved any and all duties and obligations that it or the other Released Parties might have to contribute funds toward or otherwise address any alleged damages, treatment, filtration, or remediation that in any way arises out of, relates to, or involves PFAS that has entered or may enter Drinking Water or the Public Water System of [System] or any other Releasing Party.

[System] Has Invested or Will Invest, if Warranted, in Keeping PFAS Concentrations Below Maximum Contaminant Levels

[System] has invested or will invest, if warranted, in treatment to reduce PFAS concentrations in its Drinking Water to or below federal and state Maximum Contaminant Levels for PFAS as they may be updated from time to time.

Sincerely,

[signature of authorized representative of Releasing Party/Water System]

EXHIBIT L

Dismissal with Prejudice

Model Dismissals with prejudice per Paragraph 12.6

Pursuant to Paragraph 12.6 of the Settlement Agreement, each Releasing Party shall execute a stipulation of dismissal with prejudice of all Released Claims (the “Dismissal”) in the form provided by this Exhibit L within fourteen (14) calendar days after the Effective Date.

This Exhibit L provides two model Dismissals:

- **Exhibit L.1** is a full Dismissal of all Claims brought in the Litigation by the Releasing Party against any Released Party.
- **Exhibit L.2** is a limited Dismissal of Claims brought in the Litigation by the Releasing Party against any Released Party, which may be used only upon written agreement among the Releasing Party, Class Counsel, and Tyco’s Counsel, or by leave of court, pursuant to Section 12.6.1 of the Agreement.

Exhibits L.1 and L.2 are styled as stipulated Dismissals. However, under either circumstance set forth in this paragraph, a Dismissal may be differently styled and still satisfy the requirements set forth in Paragraph 12.6. First, if a voluntary Dismissal by the Releasing Party will properly effectuate the required Dismissal with prejudice, the Releasing Party and the Released Parties may agree that the Releasing Party will file a voluntary Dismissal and, if so, shall agree to such changes to the appropriate model Dismissal as are reasonably necessary for it to be so filed.

Second, if an applicable rule of procedure or other applicable law requires either that the Dismissal be styled as something other than a stipulated Dismissal or that parties in addition to the Releasing Party and the Released Parties would need to join the stipulation, for the stipulation to become effective, the Releasing Party and the Released Parties shall make such changes to the appropriate model Dismissal as are reasonably necessary to conform to the applicable rule(s) or law(s) (*e.g.*, by restyling the model Dismissal as an agreed motion to dismiss). For the avoidance of doubt, any Dismissal must be a Dismissal with prejudice of all Claims required to be dismissed by the Settlement Agreement, including by Paragraph 12.6, and must be filed with the appropriate court(s) within the later of fourteen (14) calendar days after the Effective Date or seven (7) calendar days after the Court’s ruling on any motion for leave to file a limited dismissal.

MEMORANDUM:

THE PARTIES' JOINT INTERPRETIVE GUIDANCE ON INTERRELATED DRINKING WATER SYSTEMS

This memorandum provides guidance on how the Settlement Agreement between Public Water Systems and Tyco Fire Products LP applies in interrelated Drinking Water systems where there is not a single entity that draws water from a source, treats the water for any contaminants, and distributes the water to residential customers and other end users. This memorandum uses as its chief example of an interrelated Drinking Water system the scenario where one water system (a “retail customer”) purchases water from another entity (a “wholesaler”). The principles set forth here may also apply to other interrelated-system scenarios where more than one entity is involved in providing Drinking Water.

BASIC PRINCIPLES

- The Settlement Agreement applies to Public Water Systems that operate as wholesalers. Most wholesalers are registered with the EPA as Public Water Systems¹ and/or fall within the Settlement Agreement’s definition of “Public Water System.”
- Public Water Systems, including wholesalers and their retail customers, are Class Members if they fall within the definition of the “Settlement Class.” A Public Water System is in the Settlement Class if it detects PFAS at any level on or before May 15, 2024 or otherwise falls within the Settlement Class definition.
- Purchased water is covered by the Settlement and will be taken into account by the Claims Administrator under the Allocation Procedures.
- Consistent with a fundamental precept of the Settlement, the Settlement Agreement provides for one payment for each respective Water Source, not a double recovery by both the wholesaler and its retail customer. The payment may be divided between the wholesaler and the retail customer as described below.
- The Settlement Agreement provides the Claims Administrator with sufficient discretionary authority, subject to the Special Master’s oversight and authority to decide appeals, to apply the terms of the Settlement Agreement (including its Exhibits) to the unique facts presented by each interrelated Drinking Water system, in order to expeditiously allocate and distribute the Settlement Funds among all Qualifying Class Members in a manner that is fair and equitable and accords with the procedures and timing described in the Allocation Procedures. Appeals of the Claims Administrator’s decisions regarding apportionment of an award between two or more claimants will be

¹ In determining the number of people that a wholesaler serves, data from SDWIS’s “Population Served Count” field should be considered for both the wholesaler and related entities such as its customers, as indicated by SDWIS’s “Seller PWS ID” and “Seller PWS Name” fields.

governed by the appeals process described in paragraph 2.65 and section 8 of the Settlement Agreement.

OPERATION OF ALLOCATION PROCEDURES

- In almost all circumstances where a Public Water System purchases water from a wholesaler, both will be in the Settlement Class as to that water. Because the Settlement provides that there will be one amount allocated to that water to avoid double recovery or duplicative allocation, the following principles will apply to dividing the Allocated Amount between the wholesaler and the retail customer:
 - If the wholesaler and the retail customer come to an agreement as to how to divide the Allocated Amount, they should inform the Claims Administrator (either by submitting a Joint Claims Form, as described below, or otherwise).
 - Absent such an agreement, the Claims Administrator will divide the Allocated Amount based on relative capital and O&M costs of PFAS treatment borne by the wholesaler and the retail customer, respectively. The Claims Administrator shall determine how such costs are “borne” by assessing and taking into account which entity does, or has responsibility for, the PFAS treatment² and, to the extent it is the wholesaler, whether the retail customer paid all or part of the costs indirectly through the purchase price, under the applicable contract, or otherwise.³
- Where the wholesaler opts out (or, hypothetically, is not in the Settlement Class), but the retail customer is in the Settlement Class, the retail customer receives the recovery for the water if it shows that it bears the PFAS treatment costs for that water.
- Where the retail customer opts out (or, hypothetically, is not in the Settlement Class), but the wholesaler is in the Settlement Class, the wholesaler receives the recovery for the water if it shows that it bears the PFAS treatment costs for that water.

In applying these principles, the Claims Administrator will use information supplied in Claims Forms as described below.

MECHANICS FOR SUBMISSION OF CLAIMS FORMS

Class Members in a wholesaler-retailer relationship will have three options for submitting Claims Forms relating to the purchased water: (1) submit a Joint Claims Form to the Claims

² In this memorandum, PFAS “treatment” refers to PFAS treatment, filtration, and remediation, removal of PFAS from water or a system, and any effort to prevent PFAS from entering water or a system.

³ In this memorandum, references to “borne” and “bear” will be interpreted consistent with these principles. In determining whether a retail customer bears the cost of PFAS treatment, the Claims Administrator also may take into account whether the retail customer shows that water was re-contaminated with PFAS after sale by the wholesaler.

Administrator; (2) unilaterally submit other documentation to the Claims Administrator; or (3) do not make any special submission to the Claims Administrator (beyond the individual Claims Form that all Class Members must submit to qualify for payments). The effect of each option will be described next.

Option One:

Submit a Joint Claims Form with Another Class Member

To assist the Claims Administrator in making decisions where two or more Class Members handle the same water, the Claims Administrator shall make available a Joint Claims Form that any two (or more) Class Members may submit to provide information to help the Claims Administrator assess relevant claims. The Joint Claims Form will enable the Class Members to explain their relationship and express their joint view about the proper division of an Allocated Amount between them. For example, the Class Members submitting this Joint Claims Form may report on any contractual relationship that dictates (or at least suggests) how payments should be shared. The Claims Administrator ordinarily will adhere to any division of funds that the Class Members jointly suggest in their timely Joint Claims Form, provided the agreement is consistent with the principles and terms of the Settlement Agreement.

The Joint Claims Form is in addition to the other Claims Forms required by the Settlement Agreement, which each Class Member must still submit to obtain payment. In addition, if a wholesaler owns Impacted Water Sources that are independent of and unrelated to the water that it sells to a retail customer, the wholesaler can make independent claims for those Impacted Water Sources. Likewise, if a retail customer draws or collects water from Impacted Water Sources that are independent of and unrelated to the water that it purchases from a wholesaler, the retail customer can make independent claims for those Impacted Water Sources.

Option Two:

Submit Other Documentation Unilaterally

If, for any reason, two or more Class Members that could have submitted a Joint Claims Form do not do so, then the Claims Administrator may consider any relevant documents that either Class Member timely submits to the Claims Administrator. To facilitate the submission and review of such documents, the Claims Administrator shall make available an Addendum Form to be used by any Class Member submitting such documents. These documents could include, for example, a contract dictating or suggesting how such funding should be shared or at least explaining what responsibility is borne by each Class Member for any capital and/or O&M costs of treating PFAS.

Option Three:

Make No Special Submission

If Class Members that could submit a Joint Claims Form for a specific Water Source do not submit such a Form (Option One), and if none of those Class Members submits relevant documentation (Option Two), the Claims Administrator has full discretionary authority to request additional information that he deems necessary to determine which entity or entities bear

the PFAS treatment costs for that water. Absent adequate information about how PFAS treatment costs will be borne, the Claims Administrator may divide an Allocated Amount equally between or among Class Members.

The expectation is that Class Members eligible to file a Joint Claims Form will timely do so, likely rendering unnecessary any request for additional information. Of course, to access funds from the Settlement Agreement, a Class Member also must submit an individual Claims Form and thus become a Qualifying Class Member.

CLARIFICATIONS

Scope of Release

The Settlement Agreement contains detailed release provisions that specify whose claims are released. A core purpose of the release provisions is to prevent double recovery for the same water. In general, by participating in the Settlement, a Class Member releases claims on behalf of itself and its Releasing Parties (as defined in the Settlement Agreement) with respect to the water provided to (or supplied by) the Class Member. In general, if a wholesaler opts out of the Settlement Class and its retail customer is a Class Member, the release would extend to the wholesaler as to the water it provided to the Class Member except to the extent the wholesaler shows it had the obligation for and bore unreimbursed PFAS-treatment costs for that water independent of the retail customer. Ultimately, whether claims are released will turn on the application of the release provisions of the Settlement Agreement to the specific facts relevant to the wholesaler, the retail customer, and their relationship.⁴

Definition of “Water Source”

The Settlement Agreement defines “Water Source” as, among other things, “a groundwater well, a surface water intake, or any other intake point from which a Public Water System draws or collects water for distribution as Drinking Water.” This definition is intended to be broad and includes any point from which a Public Water System may draw or collect water, regardless of whether the Water Source is owned by a retail customer or by a wholesaler.

The Settlement Agreement’s definition of “Water Source” contains a clause expressly including “the raw or untreated water” that a Public Water System draws or collects from an intake point for distribution as Drinking Water. Such clause was intended to bar duplicative recovery for the same water. It was not intended, and should not be interpreted by the Claims Administrator, to preclude a retail customer from recovering for water that it purchases from a wholesaler, to the extent that the retail customer bears all or part of the PFAS treatment costs for that water. Nor should the clauses be interpreted to bar two or more Class Members from sharing the Allocated Amount for the water if they both bear part of the PFAS treatment costs for that water.

⁴ Nothing in this guidance supersedes the provisions of the Settlement Agreement about the States, the federal government, or certain Public Water Systems owned by States or the federal government.

* * *

Because each interrelated Drinking Water system presents unique facts, ultimately the Claims Administrator, under the Special Master's oversight, will need to exercise sound discretion to ensure fair and equitable outcomes that comport with the principles and terms of the Settlement Agreement.

EXHIBIT O

MEMORANDUM:

**THE PARTIES' JOINT INTERPRETIVE GUIDANCE ON
ENTITIES THAT OWN AND/OR OPERATE
MULTIPLE PUBLIC WATER SYSTEMS**

This memorandum provides guidance on how the Settlement Agreement between Public Water Systems and Tyco Fire Products LP applies where a single entity owns and/or operates multiple Public Water Systems.

The Settlement involves a nationwide Settlement Class of individual Public Water Systems. If one Public Water System that is an Eligible Claimant opts out (i.e., submits a Request for Exclusion) and thus does not become a Class Member,¹ that action alone would not automatically result in all Eligible Claimants with the same owner, the same operator, or both, opting out. The Settlement Agreement's Exhibit D (Notice) expressly states:

[I]f you own or operate more than one Active Public Water System and are authorized to determine whether to submit Requests for Exclusion on those Active Public Water Systems' behalf, you may submit a Request for Exclusion on behalf of some of those Active Public Water Systems but not the other(s). You must submit a Request for an Exclusion on behalf of each such Active Public Water System that you wish to opt out of the Settlement Class.

Likewise, as to the Release, if an entity that owns and/or operates multiple Public Water Systems becomes a Class Member as to some of them, but opts out as to others, that entity's claims are released as to the former Public Water Systems and their Drinking Water and are not released as to the latter Public Water Systems and their Drinking Water. And if a Class Member is owned by one entity but is operated by a second entity that owns and/or operates multiple Public Water Systems, the Class Member's decision not to opt out would result in releasing the second entity's claims related to the Class Member and its Drinking Water but would not, by itself, result in releasing the claims of other Public Water Systems owned and/or operated by the second entity.

¹ Under the Settlement Agreement, "Eligible Claimant" refers to a Public Water System that qualifies as a member of the Settlement Class, while "Class Member" means Eligible Claimant that does not opt out of the Settlement Class. *See* Settlement Agreement §§ 2.13 and 2.22.

EXHIBIT P

MEMORANDUM:

**THE PARTIES' JOINT INTERPRETIVE GUIDANCE ON
FEDERALLY RECOGNIZED INDIAN TRIBES AND
PUBLIC WATER SYSTEMS THAT THEY OWN OR OPERATE**

This memorandum provides guidance on how the Settlement Agreement between Public Water Systems and Tyco Fire Products LP applies to federally recognized Indian Tribes and Public Water Systems that they own or operate.

The Settlement Agreement does not categorically exclude or otherwise afford differential treatment to Public Water Systems owned or operated by federally recognized Indian Tribes. While the Settlement Agreement expressly excludes from the class definition certain Public Water Systems owned by the federal government or by state governments, it contains no such exclusion for Public Water Systems owned or operated by Tribes. Indeed, the Settlement Agreement contains no provisions whatsoever specifically addressing or differentiating Public Water Systems owned or operated by Tribes.

The effect of the Settlement Agreement is therefore clear: If a Public Water System owned by a Tribe otherwise meets the Settlement Class definition, that system is an Eligible Claimant and, unless the system opts out, that system will be a Class Member and the Settlement will apply in the same manner as it does to every other Class Member. This result—inclusion in the Settlement with the option to opt out—pays respect to Tribal self-government and self-determination and provides Tribe-owned Public Water Systems with a degree of flexibility not afforded to the subset of federal- and state-owned systems that are categorically excluded from the Settlement.

If one Public Water System that is owned or operated by a federally recognized Indian Tribe and is an Eligible Claimant opts out (i.e., submits a Request for Exclusion) and thus does not become a Class Member, that action alone would not automatically result in all Eligible Claimants owned or operated (or owned and operated) by the same Tribe, opting out. The Settlement Agreement's Exhibit D (Notice) expressly states:

[I]f you own or operate more than one Active Public Water System and are authorized to determine whether to submit Requests for Exclusion on those Active Public Water Systems' behalf, you may submit a Request for Exclusion on behalf of some of those Active Public Water Systems but not the other(s). You must submit a Request for an Exclusion on behalf of each such Active Public Water System that you wish to opt out of the Settlement Class. Any Active Public Water System that is not specifically identified in a Request for Exclusion will remain in the Settlement Class

Likewise, as to the Release, if a federally recognized Indian Tribe that owns or operates (or owns *and* operates) multiple Public Water Systems becomes a Class Member as to some of them, but opts out as to others, that Tribe's claims are released as to the former Public Water Systems and their Drinking Water and are not released as to the latter Public Water Systems and

their Drinking Water. And if a Class Member is owned by one federally recognized Indian Tribe but is operated by an entity that owns and/or operates multiple Public Water Systems, the Class Member's decision not to opt out would result in releasing that entity's claims related to the Class Member and its Drinking Water but would not, by itself, result in releasing the claims of other Public Water Systems owned and/or operated by that entity.

Finally, the Parties' mutual understanding is that a Release on behalf of a Tribe-owned Class Member, consistent with the terms of the Settlement Agreement, would not release a Claim that the Tribe might bring, in its sovereign capacity as a natural-resource trustee, for natural-resource damages that are wholly unrelated to Drinking Water or any Public Water System.

EXHIBIT Q

MEMORANDUM:

**THE PARTIES' JOINT INTERPRETIVE GUIDANCE ON
CERTAIN RELEASE ISSUES**

This memorandum provides guidance on certain issues relating to the interpretation of the release provisions in the Settlement Agreement between Public Water Systems and Tyco Fire Products LP.

1. Paragraphs 12.1.2.1 and 12.1.2.2 of the Settlement Agreement describe certain Claims to which certain parts of the definition of the Release (at Paragraph 12.1.1(i)–(iii)) do not apply. Paragraph 12.1.2.1 provides in part:

Paragraph 12.1.1(i)–(iii) does not apply to a Class Member's Claim related to the remediation, testing, monitoring, or treatment of real property to remove or remediate PFAS where (i) the Class Member owns or possesses real property and has legal responsibility to remove contamination from or remediate contamination of such real property; (ii) such real property is *separate from and not related in any way to* the Class Member's Public Water System (such as an airport or fire training facility); (emphasis added)

Paragraph 12.1.2.2 provides in part:

Paragraph 12.1.1(i)–(iii) does not apply to a Class Member's Claim related to the discharge, remediation, testing, monitoring, treatment, or processing of stormwater or wastewater to remove or remediate PFAS at its permitted stormwater system or permitted wastewater facility where (i) the Class Member owns or operates a permitted stormwater system or permitted wastewater facility; (ii) such facility is *separate from and not related in any way to* the Class Member's Public Water System such as a separate stormwater or wastewater system that is not related in any way to a Public Water System); (emphasis added)

It is the parties' joint understanding that the words "separate from" and "not related in any way to" in the two clauses italicized above mean "separate from and not physically related to."

2. Paragraph 2.7 of the Settlement Agreement defines the term "Claim" to include a claim for "contribution" or "indemnity." Such a Claim is released only to the extent that it is within the definition of "Release" or "Released Claims" in Paragraph 12.1 of the Settlement Agreement. Accordingly, a Claim for contribution or indemnity that relates to matters that are excluded from the definition of Release or Released Claims (e.g., a Claim that falls within the exceptions in Paragraph 12.1.2 of the Settlement Agreement) is not released.

3. Paragraph 2.55(c) of the Settlement Agreement defines the term "Releasing Parties" to include, among others, "any past, present, or future administrators, agents, attorneys, board members, counsel, directors, employees, executors, heirs, insurers, managers, members, officers (elected or appointed), predecessors, principals, servants, shareholders, subrogees,

successors, trustees, water-system operators, and assignees or other representatives, of any of the foregoing in their official or corporate capacity.” It is the parties’ joint understanding that this language does not mean that such individual persons release personal Claims (i.e., for personal injury).
